SCHEDULE OF MEDICAL BENEFITS

Standard PPO Plan

Annual Deductibles:

(Includes co-insurance; does not include co-payments)

*\$1,000 Individual

\$3,000 Family

Annual Benefit Maximum:

(Includes All Other Maximums)

Unlimited

Annual Out-of-Pocket Maximums:

(Includes deductibles, co-payments, and co-insurance)

PPO: \$4,500 Individual

PPO: \$9,600 Family

Non-PPO: \$65,000 Individual

Physician Office Visit Co-payment

(Applies to office visit charge only. Other services performed in the physician's office are subject to deductible and co-insurance.)

PPO: \$30 – Primary Care Physician (PCP)
\$40 – Specialist

Non-PPO: N/A

*Enrolled Clergy and Lay Employees who have attended the Day of Wellness by December 31 of the prior year will receive a \$200 credit toward their \$1,000 deductible for themselves and their enrolled children the following year. Enrolled spouses who have attended the Day of Wellness by December 31 of the prior year will receive a \$200 credit towards their \$1,000 deductible the following year.

Hospital Admission Co-pay for Hospitals not in the Houston Methodist Hospital System

For participants who live within certain zip codes near any of the Houston Methodist Hospital facilities, admission to a hospital other than one of the Houston Methodist Hospital facilities (Texas Medical Center-Fannin, Baytown, Clear Lake, Katy-West Houston, Sugar Land, Willowbrook, and the Woodlands) will have a per occurrence co-pay of \$2,000 for all *inpatient non-emergency hospital admissions* for services that can be performed at a Houston Methodist Hospital facility. The co-pay does not apply to outpatient services or for services not available at a Houston Methodist Hospital facility, or if the TAC Group Health Plan provides secondary coverage for the participant. The list of applicable zip codes for this co-pay can be found on the Texas Annual Conference Benefits website.

The Plan recognizes and approves of the practice that the Houston Methodist Hospital System and possibly other providers do not collect deductibles, co-pays and co-insurance from eligible participants. On occasion, Boon-Chapman (the Third-Party Administrator) and others will negotiate out-of-network provider fees on behalf of the plan.

Calendar Year Deductible

This is the amount of Covered Medical Expenses you pay each calendar year before benefits are paid. There is a Calendar Year Deductible that applies to each person.

Family Deductible Limit

If Covered Medical Expenses incurred in a calendar year by you and your dependents and applied against the separate Calendar Year Deductibles equals the Family Deductible Limit, you and your dependents will be considered to have met the separate Calendar Year Deductibles for the rest of that calendar year.

Common Accident Provision

Not more than one individual Annual Deductible will be applied to covered expenses incurred in relation to an accident involving two or more family members.

Multiple Birth

Not more than one Annual Deductible will be applied to covered expenses incurred in the same calendar year that two or more dependents are born in a multiple birth if such covered expenses are due to:

- premature birth;
- abnormal congenital condition; or
- injury or illness which begins not more than 30 days after birth.

Taxes

Any employee benefit plan taxes incurred under the Patient Protection and Affordable Care Act (PPACA) will be paid by The Texas Annual Conference of the United Methodist Church benefit plan.

Plan Co-Insurance

Plan co-insurance is the portion of covered expenses that the Plan will pay, excluding those covered expenses that a covered person must pay:

- as a deductible;
- as co-insurance;
- as co-payment; or
- because of a benefit maximum.

Exceptions to Plan Co-Insurance (Does not apply to transplants.)

If a Covered Person goes into a PPO hospital with a PPO doctor admitting, or if a Covered Person goes to a PPO hospital for outpatient services or if a Covered Person goes to a PPO provider for an office visit, the ancillary services (such as but not limited to pathology, x-ray, anesthesiology, inpatient physician visits, etc.) performed by non-network providers who may be used by the hospital or physician will be paid at the PPO provider benefit level subject to the Maximum Eligible Charge limit. The participant could be subject to Balance Billing for fees charged by the non-network provider which exceed the Maximum Eligible Charge limit.

If services are unavailable at a PPO facility or by a PPO provider in the PPO service area, or in case of an emergency, the charges will be paid at the PPO benefit level subject to the Maximum Eligible Charge limit. The participant could be subject to Balance Billing for fees charged by the non-network provider which exceed the Maximum Eligible Charge limit. The Co-insurance level for Covered Persons residing or traveling outside of a 50-mile radius from a network provider will be at the PPO benefit level. The PPO service area is defined as a 50-mile radius from the Covered Person's home address.

All other deductibles and benefit limitations apply and payment is based on the Maximum Eligible Charge as defined by the Contract Administrator.

Out-of-Pocket Maximums

Except as provided below, a covered person shall not be required to pay, in one calendar year, more than \$4,500 or \$9,600 for the family to PPO providers for his covered medical expenses. Once he/she has done so, the Plan will pay all his covered expenses for the remainder of the calendar year.

Except as provided below, a covered person shall not be required to pay, in one calendar year, more than \$65,000 to all non-PPO providers for his covered medical expenses. Once he/she has done so, the Plan will pay all his covered expenses for the remainder of the calendar year.

These out-of-pocket maximums do not apply to any covered expenses a covered person must pay:

- as co-insurance because of failure to comply with the utilization review program; or
- because of a benefit maximum.

The Plan will pay benefits to covered persons for covered expenses as described herein in accordance with the schedule of benefits. The Plan provides maximum benefits to the covered persons when they:

- receive services or treatment from a provider who is a member of Aetna's Signature Administrator's PPO;
- follow the procedures of the Employee Assistance Program described herein, which is administered by Aetna Resources for Living Employee Assistance Program; and
- follow the procedures of the utilization review program described herein, which is administered by, Capitol HealthCare Review, Inc. (CHR) dba Prime Dx, a utilization review organization.

If you have questions about participating providers or need help finding a participating provider, call Boon-Chapman's customer service number (800) 252-9653 or visit Aetna's website at <https://asalookup.aetnasignatureadministrators.com/>. A current list of PPO providers for each of the PPO's is available, without charge, through the website. If you do not have access to a computer at your home, you may access this website at your place of employment or contact the Boon Chapman Eligibility Department.

If you have questions about the utilization review program, call Prime Dx at (512) 454-5112 in Austin or (800) 477-4625 outside Austin.

If you have questions about the EAP program, call Aetna Resources for Living at (800) 492-4357.

The Contract Administrator of the Plan is Boon-Chapman Benefit Administrators, Inc. If you have other questions about the Plan (including questions about claims, premiums, and eligibility), call (512) 454-2681 or (800) 252-9653.

Out-of-Network (Non-PPO) Participant Liability

For Out-of-network (non-PPO) providers, the Plan pays 60% of the "Maximum Eligible Charge" for covered service(s) provided; the Participant pays 40% of the "Maximum Eligible Charge". ***In addition, the Participant is responsible for 100% of the difference between the "Maximum Eligible Charge" and the amount the Provider charges.*****

**Explanation: Out-of-network providers have not agreed to the contractual rate limitations agreed to by in-network providers. Out-of-network providers can charge whatever fees they choose, which are significantly higher than in-network provider rates. With an out-of-network provider claim, the plan administrator (Boon-Chapman) will determine a Maximum Eligible Charge for the procedures being billed and pay 60% of the Maximum Eligible Charge amount to the out-of-network provider. *The participant would then owe both the 40% of the Maximum Eligible Charge amount and the balance of all charges which exceed the Maximum Eligible Charge allowance.* This is referred to as "Balance Billing." The participant can attempt to negotiate directly with an out-of-network provider to accept the Maximum Eligible Charge fee as payment in full, but there is no guarantee that the provider will be willing to do so. *The Group Health Benefits Committee cannot assist you regarding the fees of an out-of-network provider.*

Example: An out-of-network provider charges \$50,000 for a surgical procedure. Boon-Chapman determines that the Maximum Eligible Charge for the surgery is \$30,000. The plan pays 60% of the Maximum Eligible Charge \$30,000 amount or \$18,000. The participant owes 40% of the Maximum Eligible Charge or \$12,000 *plus* the \$20,000 difference between the Maximum Eligible Charge amount and the \$50,000 fee the out-of-network provider is charging. In this example, the plan would pay \$18,000 and the participant would owe a total of \$32,000.

Note: ***Expenses that exceed the Maximum Eligible Charge amount are not included in satisfying the out-of-pocket maximum.***

In the above example, the \$12,000 (40% participant co-insurance) would apply to the out-of-pocket maximum, but the \$20,000 amount exceeding the Maximum Eligible Charge would not be applied to the out-of-pocket maximum.

The following schedule summarizes co-payment amounts paid by you and the plan, benefit maximums and additional explanation needed for your benefits. Please refer to the text for additional plan provisions, which may affect your benefits.

Note: *Non-PPO (Out-of-Network) Benefits are subject to the Maximum Eligible Charge limit for covered service(s) provided. In addition to any participant deductibles and co-insurance owed, the participant would be responsible for any fees charged by the Non-PPO Provider that exceed the Maximum Eligible Charge limit. Please see Out-of-Network Participant Liability on page 3.*

Some benefits are subject to the annual deductible which must be met prior to any benefits being paid as indicated in the schedule below. Other benefits may have a fixed co-payment (co-pay) in lieu of having to meet the annual deductible.

Benefit Description	Annual Deductible or Co-pay	Plan Pays	Additional Limitations and Explanations
Alcohol/ Substance Abuse			All care must be pre-certified. Plan or lifetime limit of three (3) separate series of treatments.
Inpatient Coverage

Note: *Non-PPO (Out-of-Network) Benefits are subject to the Maximum Eligible Charge limit for covered service(s) provided. In addition to any participant deductibles and co-insurance owed, the participant would be responsible for any fees charged by the Non-PPO Provider that exceed the Maximum Eligible Charge limit. Please see Out-of-Network Participant Liability on page 3.*

OUT OF PPO SERVICE AREA:

For those covered participants who have been designated as residing outside of the PPO area, benefits will be calculated at the PPO level, but would be subject to the Provider's Maximum Eligible Charge. Please see "Exceptions to Plan Co-Insurance" on page 2 of this plan document.

TELADOC®

Teladoc® is a telehealth medicine program that gives participants access to quality medical care via phone access 24 hours a day, seven days a week, 365 days a year. The doctors in this program are U.S. Board Certified in Internal Medicine, Family Practice, or Pediatrics. They average 15 years' practice experience, are licensed in your state, and incorporate Teladoc® into their day-to-day practice to provide members with convenient access to quality medical care. Teladoc® physicians can treat many medical conditions such as cold and flu symptoms, allergies, bronchitis, skin problems, respiratory infections and sinus problems, and can prescribe medications for short-term conditions.

Teladoc® is not meant to replace your primary care physician. Teladoc® should be used when you need immediate care for non-emergency medical issues. It is a free, convenient alternative to urgent care and ER visits. It is also helpful when you are on vacation, on a business trip, or away from home and cannot see your primary care physician for an urgent need.

To access this program, either visit www.teladoc.com or call 1-800-Teladoc (835-2362).

MENTAL HEALTH BENEFITS

While being a member of the clergy provides many blessings, being in ministry is also highly stressful. Studies have shown that 80% of clergy do not have someone they consider a close friend and 70% indicate ministry has negatively impacted their family life. (Statistics provided by Krist Samaritan Center).

To ensure that as caregivers TAC clergy and lay employees have the care that they need, the Group Health Benefits Committee provides three different levels of mental health benefits. Following is a summary of each of these benefits which you and your dependents enrolled in the Group Health Benefits plan are eligible to use. *There is no requirement to use one category of benefits before another. Instead, you are free to choose any or all benefits to address your needs. All treatment is confidential.*

TAC mental health benefits include the following three plans:

1. **Employee Assistance Program (EAP)** – Aetna Resources for Living
6 sessions per issue per calendar year at no cost to you or your dependents
2. **Exclusive Provider Organization (EPO)** – Specific Providers (see below)
50 counseling sessions per calendar year – \$25 co-pay per session
3. **PPO Medical Plan** – Boon-Chapman
Unlimited mental health visits per calendar year – \$30 co-pay (Primary Care) or \$40 co-pay (Specialist) per visit for PPO providers.

Employee Assistance Program (EAP) – Aetna Resources for Living (ARL)

The Texas Annual Conference provides an Employee Assistance Program *at no cost to you or your dependents* through Aetna Resources for Living. The Aetna Resources for Living EAP provides short-term, solution-focused counseling to assist individuals in balancing their work and life. The EAP offers completely confidential support and direction day or night, and can be reached by calling 1-800-492-4357, 24 hours a day/7 days a week. You and your dependents will reach a caring, compassionate professional, ready to help you start on the path to resolving any life issue.

When you contact the EAP, a short telephonic assessment is conducted to assess the most appropriate assistance for the presenting problem. If the issue is appropriate for short-term counseling, you will be given a referral to an ARL provider to begin counseling. Many issues that individuals contact the EAP for can be improved or alleviated within the 6 sessions provided; however, there are some situations which may require more intensive assistance. If the presenting issue is one that requires more intensive treatment, the EAP counselor will help direct you to your PPO plan.

Following are some of the many services your EAP offers:

- *Provides up to 6 sessions per issue per calendar year at no cost to you or your dependents.*
Counseling can be face-to-face or by phone.
- Call 1-800-492-4357, 24 hours a day/7 days a week, including holidays and weekends.
- EAP counselors can help with all type of issues, including:
 - Marriage / Family / Parenting issues
 - Stress management
 - Anxiety and depression
 - Substance abuse
 - Bereavement
 - Work-related concerns
- Work-Life Services can assist with referrals for:
 - Adoption / Child care / Elder care
 - Educational needs such as scholarships and financial aid
 - Financial needs, including 30 days of free telephonic financial coaching

- Legal services, which includes one free initial office or telephone consultation up to 30 minutes with a network attorney. Participating attorneys may be retained for additional services at a 25% reduction of their normal hourly rate.
- Referrals to community agencies
- Life Coaching provides up to three 50-minute phone coaching sessions per issue such as:
 - Spirituality and personal growth
 - Motivation and time management
 - Finances and budgeting
 - Career planning and development
 - Stress management and balance
 - Call 1-866-583-0119, Monday – Friday, 7 am to 7 pm Central Time.
- Online Services at www.mylifevalues.com
 - Username: Methodists
 - Password: 8004924357
 - Hundreds of articles, guidebooks, webinars and other resources are available for topics such as emotional wellbeing, health, family life, small business needs, financial and legal issues, personal growth, and stress management.

There is no cost to you or your dependents to use any EAP service!

Exclusive Provider Organization (EPO) – Specific Providers (listed below)

All enrolled active employees and their enrolled dependents have access to *50 counseling sessions per calendar year* at the specific providers listed below through the Exclusive Provider Organization (EPO) benefit. (This benefit is in addition to the 6 visits per issue per year allowed through the Employee Assistance Program, as well as the unlimited visits per calendar year allowed under the PPO Plan.)

Your EPO benefit *provides up to a maximum of 50 counseling sessions per calendar year* at:

1. Epiphany Counseling and Consultation, 4306 Yoakum, Suite 565, Houston, TX 77006
Phone: 832-455-7554; *or*
2. Nick Finnegan Counseling Center, St. Luke’s UMC, 2714 Joanel St., Houston, TX 77027
Phone: 713-402-5046; *or*
3. Yolanda Garcia, PC, 26113 Oak Ridge Dr., Suite C, The Woodlands, TX 77380
Phone: 713-412-7071; *or*
4. Krist Samaritan Center, 17555 El Camino Real, Houston, TX 77058 (and satellite locations);
Phone: 281-480-7554; *or*
5. Jessica C. Lewis, MEd, LPC-S, 1035 E. 11th St., Houston, TX 77009;
Phone: 832-722-3767; *or*
6. Orion Mosko, PhD, 77 Sugar Creek Center Blvd., Suite 375, Sugar Land, TX 77478
Phone: 832-835-1779; *or*
7. David Parmer, MA, LPC, 26113 Oak Ridge Rd., Suite C, The Woodlands, TX 77380
Phone: 281-907-1314; *or*
8. Wilkins Counseling Center, 325 Tenaha St., Center, TX 75935;
Phone: 936-598-6413

- Contact any EPO provider directly to schedule counseling sessions under the EPO.
- Marriage and family counseling are covered.
- *There is a \$25 co-pay per EPO session.*

PPO Medical Plan – Boon-Chapman

Under the PPO medical plan, covered individuals can receive unlimited mental health visits per calendar year. More information regarding the mental health coverage through the Boon-Chapman PPO Plan can be found in the Schedule of Benefits and Medical Care Coverages sections of this plan document.

Under the PPO:

- Covered individuals can receive unlimited mental health visits per calendar year.
- All inpatient mental health services including acute care and residential treatment must be pre-certified by calling Prime Dx at 1-800-477-4625.
- To find a Mental Health PPO provider, call Boon-Chapman customer service at 1-800-252-9653 or go to <https://asalookup.aetnasignatureadministrators.com/>.
- There is a \$30 co-pay (Primary Care) or a \$40 co-pay (Specialist) per visit for PPO providers.
- For a non-PPO provider, your deductible and 40% co-insurance will apply.

Please refer to the following under **Medical Care Coverages – Eligible Medical Expenses**:

Attention Deficit Disorder/Attention Deficit Hyperactivity Disorder (ADD/ADHD)

Treatment may include any of the following services:

- Initial diagnosis and assessment;
- Psychological, psychiatric and pharmaceutical (medication management) care; or
- Applied behavioral analysis (ABA) therapy.

Does not include services or treatment identified elsewhere as non-covered or excluded such as:

- Investigative/Experimental or unproven;
- Custodial; or
- Educational or services that should be provided through the school district.

Treatment must be considered medically necessary based on clinical information provided by the treating physician.

Autism Spectrum Disorder

Coverage for all generally recognized services prescribed in relation to autism spectrum disorder by the patient's physician in the treatment plan recommended by that physician. The prescribed treatment must be provided by an appropriately licensed, certified, or registered health care practitioner.

Generally recognized services may include:

- Evaluation and assessment services;
- Applied behavioral analysis;
- Behavior training and behavior management;
- Speech therapy;
- Occupational therapy;
- Physical therapy; or
- Medications or nutritional supplements used to address symptoms of autism spectrum disorder.

Benefits for non-rehabilitative treatment of autism are not covered under this plan.

Developmental Delays (Other Than Learning Disorders)

Treatment may include any of the following services:

- Initial diagnosis and assessment;
- Psychological, psychiatric and pharmaceutical (medication management) care;
- Speech therapy, occupational therapy; and physical therapy.

Does not include services or treatment identified elsewhere as non-covered or excluded such as:

- Investigative/Experimental or unproven;
- Custodial;
- Nutritional-diet supplements; or

- Educational or services that should be provided through the school district.

Treatment must be considered medically necessary based on clinical information provided by the treating physician.

Psychiatric, Psychological, or Neuropsychological Testing or Evaluation

Psychiatric, psychological or neuropsychological testing or evaluation specifically related to the treatment of a psychiatric condition, or as may be otherwise specifically provided herein.

*Please refer to the following under **Medical Limitations and Exclusions:***

Counseling, Evaluation or Therapy

- Psychiatric, psychological or neuropsychological testing or evaluation *not* specifically related to the treatment of a psychiatric condition except as may be specifically provided herein;
- Vocational testing, evaluation, counseling, or therapy;
- Hypnotherapy;
- Marriage or family counseling;
- Behavioral problems unrelated to the treatment of a psychiatric condition except as may be specifically provided herein;
- Mental retardation; or
- Counseling for sexual dysfunctions or inadequacies.

Learning Disorders

Except as may be specifically provided herein, the plan does not cover:

- Psychiatric, psychological, or neuropsychological testing or evaluation of learning disorders; or
- Treatment of learning disorders (including behavioral problems). Treatment of learning disorders includes, but is not limited to, any physical, speech, and/or occupational therapy that may be prescribed for treatment.

There is no requirement to use one category of mental health benefits before another (i.e., EAP, EPO, or PPO). *All members are free to choose any or all benefits to address their needs. All treatment is confidential.*

SCRIPT CARE PRESCRIPTION DRUG CARD PROGRAM

The prescription drug card program is a benefit supplement for the plan selected. The drug card can be used to purchase prescription drugs at participating pharmacies.

Annual Deductible*:	Individual – \$50	Family – \$100
Annual Out-of-Pocket Maximum**:	Individual – \$2,000	Family – \$4,000

**The Annual Prescription Drug Deductible/Out-of-Pocket Maximum is effective each year beginning January 1.*

****Group Health Plan participants in the Standard PPO Plan will have an Annual Prescription Drug Maximum Out-of-Pocket expense limit of \$2,000 for individuals or \$4,000 for a family which includes deductibles, co-pays and co-insurance expenses. *The Prescription Drug Maximum Out-of-Pocket expense is separate from the Medical Annual Out-of-Pocket Maximums.***

Retail Non-Walgreens (30-day supply)

ACA Medications
 Specified Generic Chronic Illness Drugs***
 Generic
 Preferred Name Brand
 Non-Preferred Name Brand

Co-Payments:

 \$137.50 co-pay plus 20% of cost over \$687.50
 \$200 co-pay plus 20% of cost over \$1,000

***Specified Chronic Illness Drugs covered at 100% (\$10 co-pay at Walgreens) must fall into one of the following GPI (Generic Product Identifier) Classes:

- Asthma (GPI: 44)
- Blood Pressure (GPI: 33, 34, 36, 37)
- Cholesterol (GPI: 39)
- Diabetes (GPI: 27)
- Proton-Pump Inhibitors (GPI: 49)

Additional Walgreens Pharmacy Co-pay

Due to higher costs for medications, there will be an additional \$10 per prescription co-pay for medications purchased at Walgreens Pharmacies. The \$10 per prescription co-pay will apply to the above Specified Chronic Illness generic medications if purchased at a Walgreens Pharmacy. Participants can use other pharmacies in the Script Care Network to avoid the additional \$10 per prescription co-pay.

Deductibles and co-pays apply to prescriptions purchased through a participating pharmacy as designated by the prescription drug card program. Deductibles and co-pays for the prescription drug card program will not apply to Medical Plan deductibles or out-of-pocket expenses. **If prescription drugs are purchased without using the drug card, they will be reimbursed at 50% of the contracted price unless documentation is received designating the claim as an emergency.**

Maintenance prescriptions may be purchased in quantities limited to a 90-day supply or 100 units, whichever is greater. There will be one co-pay for each 30-day supply.

The prescription drug card program is found on the front of the Employee Medical Insurance Identification Card. For a list of participating pharmacies or for other questions, please contact Script Care, Inc. at (800) 880-9988.

Covered prescription drug expenses are limited to those for:

- prescription legend drugs (i. e., any medicinal substance whose label is required to bear the legend: "Caution: Federal Law Prohibits Dispensing Without a Prescription");
- oral, injectable and other contraceptives;
- compound medications, of which at least one ingredient is a prescription legend drug (see section titled "Script Care Compounding Drug Program" for additional information);
- prescribed prenatal legend vitamins;
- any other drugs that under the applicable state or federal law may be dispensed only upon the written prescription of a physician; and
- injectable insulin, including disposable insulin needles or syringes, or other injectable drugs which have been approved by the FDA;

and do not include those expenses for:

- tretinoin, all dosage forms (e. g. Retin-A), for individuals 26 years of age or older;
- Nicorette or any other drug containing nicotine or other smoking-deterrent medications;
- anorectics (drugs used for the purpose of weight control);
- vitamins (singly or in combination);
- Rogaine (minoxidil);
- dietary supplements;
- fluoride supplements;
- non-legend drugs other than insulin;
- charges for the administration or injection of any drug;
- therapeutic devices or appliances, including needles, syringes, support garments, and other non-medicinal substances regardless of their intended use, except those listed above;
- prescriptions that a covered person is entitled to receive without charge under any workers' compensation law;
- immunization agents, biological sera, blood, or blood plasma;
- medication that is to be taken by or administered to an individual, in whole or part, while he/she is a patient in a licensed hospital, rest home, sanitarium, extended care facility, convalescent hospital, nursing home, or similar institution that operates on its premises, or allows to be operated on its premises, a facility for dispensing pharmaceuticals;
- any quantity of drugs or medicines dispensed that exceeds a 34-day supply or 100-unit doses, whichever is greater, when taken in accordance with the direction of the prescriber; unless provided through any special program or mail order program specified in the schedule of benefits.
- infertility medications; and
- any prescription refilled before 75% of the supply is used or in excess of the number of refills specified by the physician, or any refill dispensed after one year from the physician's original order.

Starter Dose Program

New prescriptions for certain medications will be dispensed initially as a trial dose for a maximum of 10 days. This applies only to new prescriptions, not refills for current medications. It is not necessary for your doctor to do anything different when prescribing medication. The prescription can be for a duration up to a 60-day or 100 units supply. When the pharmacy processes the prescription with Script Care, the on-line system will recognize the new prescription and message the pharmacy to dispense the trial dose and to collect up to a \$15.00 co-pay. If the prescription is tolerated and is producing the desired results then the remaining supply of medication can be dispensed, and you pay the additional co-payment minus the co-payment you paid for the trial dose. If not, the patient should contact their physician and discuss the results. If a new prescription is required for a different medication it will also be dispensed as a trial dose with a co-payment up to \$15.

Script Care Specialty Drug Program

The Script Care Specialty Pharmacy Program focuses on the delivery and management of pharmaceutical products that are generally, but not exclusively, biotechnological in nature, and on coordinating care for members required to take these medications.

The Program's drug list includes core treatment therapies for disease states such as:

- Growth Hormone
- Multiple Sclerosis
- Hepatitis
- Hemophilia
- Cancer
- Pulmonary Disorders
- Infertility
- Rheumatoid Arthritis
- Other Various Disease States
- Patient Benefits

This Program has been designed to support the needs of the patient's therapy. Along with integrated claims administration, the Program offers drug therapy benefits for the patient such as case management, delivery information, customer care support, home health agency support and nurse consultation regarding the medication.

The medications included in this Program are not items you find behind the counter at the retail pharmacy. The Program focuses solely on the distribution of these non-retail medications. The Specialty Pharmacy Customer Care Staff is readily available for plan members to answer questions regarding the patient's medication, administering the drug or delivery of the product. For the available physician-administered therapies, members have the option of delivery to their doctor's office or their home.

Script Care Compounding Drug Program

A compound prescription allows a doctor to prescribe and a pharmacist to prepare a customized medication to meet a specific patient need. Compounding allows more flexibility with regard to dosage and strength and can include several ingredients. Compound medications are used for a variety of conditions, such as for children or adults who cannot swallow tablets and need a liquid medication, people who suffer from pain who have not responded well to other treatment, and individuals who need hormone replacement therapy. Any pharmacy can compound, but normally a few independent pharmacies handle most of the compounding in a given area. In some cases the doctor will direct a patient to a pharmacy for compounding.

New compound prescriptions over \$100 will be rejected at the retail pharmacy. The rejection message will instruct the pharmacist to call the Script Care customer service department.

Script Care customer service will assist the pharmacy or member with transferring the prescription to Pharmacy Innovations, Script Care's accredited compounding pharmacy. Pharmacy Innovations will compound the prescription, ship it overnight to the member's home, and set up refill procedures.

It is expected that the Script Care compounding program will reduce the cost of compound prescriptions by up to 50%. Since compound drugs can cost thousands of dollars, the program will provide substantial savings both to the participant and to the plan. It will also assure that plan members receive the highest quality medications available.

Pharmacy Innovations has received advanced training in order to compound the highest quality preparations in almost every medical specialty. They have policies and procedures in place to standardize compounding in order to ensure that each prescription is of the highest possible quality.

In addition, Pharmacy Innovations is an accredited compounding pharmacy with the Pharmacy Compounding Accreditation Board (PCAB) and complies with nationally accepted quality control, quality assurance and quality improvement standards to assure that the patient receives a quality medication.

To comply with PCAB standards and earn accreditation, pharmacies voluntarily participate in an evaluation process to verify that the pharmacy is not on probation for issues related to compounding quality or public safety. In addition, the compounding pharmacy must be properly licensed in each state it does business in.

A PCAB compounding pharmacist trained in evaluating compliance with PCAB's quality standards then conducts an extensive on-site evaluation of the pharmacy which includes:

- Assessment of the pharmacy's system for assuring and maintaining staff competency.
- Review of facilities and equipment.
- Review of records and procedures required to prepare quality compounded medications.
- Verification that the pharmacy uses ingredients from FDA registered and or licensed sources.
- Review of the pharmacy's program for testing compounded preparations.

Only when a pharmacy has met the PCAB rigorous standards is accreditation issued. PCAB accreditation means the pharmacy has independent, outside validation that it meets nationally accepted quality assurance, quality control, and quality improvement standards. Pharmacy Innovations has been designated by PCAB as an accredited compounding pharmacy and has received the PCAB seal.

ELIGIBILITY AND EFFECTIVE DATES

Eligibility Requirements – Employees

The following eligibility rules are interpreted according to the policies published on the Texas Annual Conference (TAC) website. Please refer to these policies for additional clarification.

To be eligible to participate in the TAC Group Health Benefits plans, the employee must be in one of the following eligible categories and pay the appropriate rate for the relevant coverage.

Clergy Eligibility

Active Clergy

A clergy appointed by the Bishop of the Texas Annual Conference (TAC) of The United Methodist Church to a local church within the TAC or to an Extension Ministry as designated in Group Health Benefits Policy 102 (and as stipulated below), who works thirty (30) or more hours per week (*indicated by a 75% or 100% appointment*), and provides the required personal contribution, is eligible to participate in the Group Health Benefits Plan. For student pastors, scheduled hours of academic classes count toward the thirty (30) hours requirement. Students not serving a local church are not eligible under this paragraph.

Extension Ministers (Group Health Benefits Policy 102)

Effective October 1, 2012, the following categories of clergy appointed to Extension Ministries within the TAC are eligible to participate in the Group Health Benefits plan:

1. Clergy where the Texas Annual Conference (TAC) is the salary-paying unit, such as District Superintendents, Center Directors, and Associate Directors, as defined by ¶ 344.1.a.1 of the *2012 Book of Discipline*.
2. Clergy appointed to Campus Ministries or Wesley Foundations, as defined by ¶ 344.1.a.1 of the *2012 Book of Discipline*.
3. Any Extension Minister covered by the Group Health Benefits Plan as of October 1, 2012.

An Extension Minister who does not fall into one of the categories designated above is not eligible to participate in the TAC Group Health Benefits plan.

Effective Date – Clergy

Clergy become eligible for Group Health Benefits as of the date of their first appointment. Eligible clergy must complete an enrollment form and submit it to the TAC Benefits Office within 60 days of the date of their first appointment, whereupon coverage will be retroactive to the date of their first appointment. If an eligible clergy does not submit a completed enrollment form during this 60-day period, the employee and any eligible dependents must wait until the next annual open enrollment period to enroll unless gaining eligibility under provisions of a special enrollment period. Coverage for clergy and their dependents enrolling during the annual open enrollment period will be effective on January 1 of the following year.

Medical Leave (CPP Disability) (Group Health Benefits Policy 136)

Clergy appointed to Medical Leave (CPP Disability) by the Texas Annual Conference will be eligible to continue their TAC Group Health Benefits coverage as long as they are eligible for Medical Leave (CPP Disability) based on the eligibility rules of the Comprehensive Protection Plan (CPP). Clergy appointed to Medical Leave (CPP Disability) must submit evidence of applying for Medicare Disability benefits when appropriate. Once Medicare becomes the primary coverage, the participant then pays the appropriate Medicare Primary rate.

Medical Leave (Short-Term) (Group Health Benefits Policy 136)

Clergy approved for Medical Leave (Short-Term) will be eligible to continue their TAC Group Health Benefits coverage under their current appointment for up to a maximum of nine (9) months. If approved for CPP disability benefits under the Comprehensive Protection Plan (CPP), the clergy will be appointed to Medical Leave (CPP Disability) as of the date of their eligibility for CPP disability benefits.

Medical Leave (non-CPP Disability) (Group Health Benefits Policy 136)

Clergy appointed to Medical Leave (non-CPP Disability) will be eligible for TAC Group Health Benefits coverage for up to a maximum of twelve (12) months. Clergy approved for Medical Leave (Short-Term) who do not qualify for CPP Disability and /or are unable to return to work at the end of their Short-Term Medical Leave may be appointed to Medical Leave (non-CPP Disability) not to exceed a total of twelve (12) months of combined Short-Term and non-CPP Disability Medical Leave.

Clergy Ineligibility

Clergy not eligible to participate in the Group Health Benefits plan includes, but is not limited to, the following categories:

Part-time

Part-time clergy working on average less than thirty (30) hours per week are not eligible to participate in the TAC Group Health Benefits plan.

Extension Ministers

Extension ministers who do not fall into one of the categories designated in the eligibility section above are not eligible to participate in the TAC Group Health Benefits plan.

Non-Payment of Personal Contribution

Clergy who fail to make payment of their personal contribution will lose eligibility for benefits after 90 days of non-payment if no payment arrangements have been made.

Unappointed Local Pastors

Licensed local pastors not under appointment are not eligible to participate in the TAC Group Health Benefits plan.

Termination

Clergy on Honorable Location, who surrender credentials or are otherwise terminated, are not eligible to participate in the TAC Group Health Benefits plan.

Leave of Absence

Clergy appointed to Personal Leave, Family Leave, Transitional Leave, or Involuntary Leave may be eligible to participate in the TAC Group Health Benefits plan as indicated in the "Extension of Coverage" section in this document. For eligibility under the Family and Medical Leave Act of 1993 (FMLA), see the "Extension of Coverage" section in this document.

Intentional Interim Ministers (Group Health Benefits Policy 129)

Retired clergy serving a TAC local church as an Intentional Interim Minister are not eligible to participate in the TAC Group Health Benefits plan.

Early Retiree (Clergy) and Dependent Eligibility

A retired clergy under age 65 (early retiree) who meets the criteria for TAC Early Retiree Group Health Coverage can elect to remain on the TAC self-insured Group Health Plan along with any under age 65 eligible dependents until the clergy and/or enrolled dependents reach age 65 or otherwise lose eligibility under the plan.

To be eligible to enroll in TAC Early Retiree Group Health coverage, retired clergy must meet the following requirements:

1. Early retiree must be under age 65.
2. Early retiree must have participated in the TAC Group Health Benefits Plan for at least two years (24 consecutive months) immediately preceding retirement and must be enrolled at the time of retirement.
3. Early retiree must receive or be eligible to receive a pension from Wespath (former General Board of Pensions) (excluding UMPIP).
4. TAC subsidizes the cost of TAC Group Health Coverage for early retirees ages 62 – 65 or with 30+ years of service by 50% of the Direct Billing Rate for the clergy's applicable coverage level.
5. Early retirees under age 62 pay the direct billing rate as per the Rate Schedule. *There is no TAC subsidy toward the cost of TAC Group Health Coverage for early retirees under age 62, nor do early retirees under age 62 receive the 50% subsidy when they reach age 62.*

To be eligible to enroll in TAC Early Retiree Dependent Group Health coverage, dependents of early retirees must meet the following requirements:

1. Dependents of early retirees must be under age 65.
2. Dependents of early retirees must have participated in the TAC Group Health Benefits Plan *for at least two years (24 consecutive months) immediately preceding the clergy's retirement and must be enrolled at the time of the clergy's retirement.*
3. ***Effective December 1, 2011, retired clergy will not be permitted to add any dependents to their group health coverage after they retire.*** Retiree group health coverage is a benefit provided based on the contributions of the clergy and spouse over the span of their active ministry. Thus, if a clergy remarries after retirement, the new spouse will not be eligible for retiree TAC Group Health coverage (unless the new spouse is a surviving spouse of a retired TAC clergy as described under Surviving Spouse coverage below).

Early Retiree (Clergy) and Dependent Loss of Eligibility

A retired clergy under age 65 (early retiree) who meets the criteria for TAC Early Retiree Group Health Coverage can elect to remain on the TAC self-insured Group Health Plan along with any under age 65 eligible dependents until the clergy and/or enrolled dependents reach age 65 or otherwise lose eligibility under the plan.

An early retiree or under 65 eligible dependent of an early retiree who chooses not to enroll in (or to terminate coverage in) the TAC self-insured Group Health Plan, will lose eligibility and *will not be allowed to re-enroll in the TAC self-insured Group Health Plan in the future.* An early retiree who transfers to a US Military Plan can return to the TAC plan only when the Military Plan ceases to exist.

Surviving Spouse Eligibility

Surviving spouses under age 65 and any eligible dependents of a TAC clergy enrolled in the plan at the time of the clergy's death can elect to remain on the TAC self-insured Group Health Plan along with their eligible dependents until the surviving spouse reaches age 65 or the surviving spouse or enrolled dependents otherwise lose eligibility under the plan. Under age 65 surviving spouses will pay the appropriate personal contribution amount as determined by the Rate Schedule.

Surviving Spouse Loss of Eligibility

In the event of remarriage, the surviving spouse's eligibility to participate in the plan will terminate at the end of the month in which the surviving spouse remarries unless the surviving spouse remarries a retired clergy of the TAC, in which case the surviving spouse will retain eligibility for benefits under the plan.

A surviving spouse under age 65 who chooses not to enroll in (or to terminate coverage in) the TAC self-insured Group Health Plan, will lose eligibility along with any enrolled dependents and *will not be allowed to re-enroll in the TAC self-insured Group Health in the future.*

Lay Employee Eligibility

Full-time Lay Employee

A lay employee whose salary-paying unit is the Texas Annual Conference Fiscal Office and who works an average of at least thirty (30) hours per week is eligible to participate in the Group Health Benefits Plan.

Effective Date – Lay Employees

Eligible lay employees may enroll in the Group Health Benefits Plan with an effective date of sixty (60) days from the eligible employee's start date by submitting an enrollment form to the TAC Benefits Office within sixty (60) days of their effective date. If an eligible lay employee does not submit a completed enrollment within sixty (60) days of their effective date, the employee and any eligible dependents must wait until the next annual open enrollment period to enroll unless gaining eligibility under provisions of a special enrollment period. Coverage for lay employees and their dependents enrolling during the annual open enrollment period will be effective on January 1 of the following year.

Lay Employee – Medical Leave (Long Term Disability Benefits) (Group Health Benefits Policy 136)

A lay employee of the Texas Annual Conference (TAC) Fiscal Office who qualifies for long term disability benefits under the TAC Fiscal Office Long Term Disability (LTD) Policy would be eligible to continue their TAC Group Health Benefits coverage for up to a maximum of three (3) years if the following conditions are met:

1. the individual has been a full-time employee of the TAC Fiscal Office for a minimum of five (5) consecutive years (including any FMLA Leave) at the time of eligibility for disability benefits;
2. following the initial waiting period, the individual has been continuously covered under the TAC Group Health Benefits Plan while a lay employee of the TAC Fiscal Office; and
3. the lay employee continues to qualify for LTD Benefits under the TAC Fiscal Office Long Term Disability Policy.

Lay Employee – Leave of Absence

A lay employee of the Texas Annual Conference approved for unpaid leave of absence may be eligible to participate in the TAC Group Health Benefits plan as indicated in the "Extension of Coverage" section in this document. For eligibility under the Family and Medical Leave Act of 1993 (FMLA), see the "Extension of Coverage" section in this document.

Lay Employee Ineligibility

Part-time

Part-time lay employees who work on average less than thirty (30) hours per week are not eligible to participate in the Group Health Benefits Plan.

Variable-Hour Lay Employees, Seasonal Lay Employees, and Lay Interns

Variable-hour lay employees, seasonal lay employees, and lay interns are not eligible to participate in the TAC Group Health Benefits Plan unless, following a six-month evaluation (the "measurement period," consisting of 28

weeks, measured consecutively from the employee's start date), the employee is determined to be a full-time employee.

If the TAC determines that the employee is a full-time employee at the end of the measurement period and the employee elects to enroll in the TAC Group Health Benefits Plan, coverage will begin on the first day of the first full calendar month following the expiration of the measurement period. (For example, under this scenario, if the employee's start date is January 15, 2014, coverage would begin on August 1, 2014.) If, based on the number of hours worked, the TAC determines that the employee is a full-time employee at the end of the measurement period, and the employee enrolls in the plan, coverage will continue for a minimum of six (6) months from the initial date of coverage (the "stability period"), regardless of the number of hours the employee works, so long as the employee remains employed by the TAC during the stability period. The measurement period will also apply to any employee who is expected initially to be employed full-time but who is not expected to be employed full-time for more than six (6) consecutive months.

Eligibility Requirements — Dependents

If an employee is covered by the plan, the employee's eligible dependents can also be covered. An eligible dependent of an employee is:

1. A spouse. Such spouse must have met all requirements of a valid marriage contract in the state of marriage;
2. A child under the age of 26 who is the employee's:
 - a. natural child;
 - b. legally adopted child or child placed in the home (in accordance with applicable law) awaiting the employee's adoption;
 - c. stepchild;
 - d. foster child; or
 - e. grandchild, if the employee is the court-appointed custodial parent of the grandchild.
3. A newborn child of the covered employee for the first 31 days after birth.
4. An otherwise eligible child who is age 26 or over and incapable of self-support because of developmental or physical handicap that began before his or her 26th birthday. You must submit written evidence of the child's incapacity within 31 days of the later of the child's 26th birthday or your effective date, and either:
 - a. the child is a beneficiary immediately before his or her 26th birthday; or
 - b. the child's 26th birthday preceded your effective date and the dependent has been continuously covered as your dependent on a group coverage since that birthday.

An eligible dependent does not include:

1. any person who is on active duty in a military service;
2. any person who is eligible as an employee under the plan; or
3. any person who is covered as a dependent of another employee under the plan.

As of December 1, 2011, no new dependents can be added to the benefit plan of any person in a Retiree or a Surviving Spouse status.

If a TAC retired employee age 65+ has a covered dependent or dependents under the age of 65, the under age 65 dependent(s) may remain on the TAC self-insured Group Health Plan until the earliest of the following:

- The dependent no longer qualifies as a dependent based on the provisions of this plan document; or
- The dependent becomes age 65.

Contributory Coverage

This plan may provide contributory coverage (the employee pays a part of the cost of the employee's and/or dependent coverage).

Effective Date — Dependents

An eligible dependent will be covered provided the employee submits the required enrollment or change form during the applicable enrollment period and the employee has agreed to pay any required contribution for such coverage. The effective date of dependent coverage will be determined by the applicable enrollment period:

- **Initial Enrollment Period** – Dependent coverage will be effective as of the date the employee's coverage begins, provided the employee enrolls the employee and any eligible dependents within 60 days of the employee's eligibility date; or
- **Annual Open Enrollment Period** – Dependent coverage will be effective January 1 of the year following receipt of an enrollment form during the annual open enrollment period; or
- **Special Enrollment Period** – Dependent coverage will be effective as of the applicable effective date as specified in the Special Enrollment Period provisions below.

Effective Date Provision

A dependent's coverage or change in coverage shall not become effective until the employee's coverage or change in coverage has also become effective. A dependent's coverage will not become effective prior to the employee's effective date.

Annual Open Enrollment Period

Eligible dependents not enrolled during the employee's initial 60-day enrollment period may be enrolled during the annual open enrollment period. A completed enrollment form must be submitted prior to December 1 of each year. Enrollment in the plan will be effective on the first day of January after the date on which the plan receives the completed enrollment form.

Special Enrollment Period – Marriage, Birth or Adoption of a Child

An enrolled employee may enroll all eligible dependents at any time provided that a spouse or child has become an eligible dependent of the employee through marriage, birth, adoption, or placement for adoption. In this case, the employee must submit a completed enrollment or change form within 31 days of the date of the marriage, birth, adoption or placement for adoption.

Enrollment in the plan will be effective on the date (1) of the employee's marriage; (2) of the new dependent's birth; or (3) of the new dependent's adoption or placement for adoption with the employee.

An employee participant who marries can add the spouse and the spouse's eligible child(ren) as dependents to the plan by submitting an enrollment or change form within 31 days of the date of marriage. Enrollment in the plan will be effective on the date of marriage. A new dependent not enrolled within 31 days of the date of marriage can only be enrolled during the annual open enrollment period unless gaining eligibility under provisions of a special enrollment period.

A newborn baby or adopted child will be covered for 31 days from birth or the date an adopted child is placed in the home (in accordance with applicable law) awaiting the employee's adoption if the employee has employee coverage in effect at the time of birth or placement for adoption. The dependent must be properly enrolled within 31 days to be eligible to continue participation in the Plan. A newborn baby or adopted child not enrolled within 31 days can only be enrolled during the annual open enrollment period unless gaining eligibility under provisions of a special enrollment period.

Special Enrollment Period – Loss of Prior Coverage

If an employee does not enroll the employee and/or the employee's dependents within sixty (60) days of becoming eligible for coverage and subsequently wishes to elect such coverage, in appropriate circumstances the employee may do so under the plan's special enrollment rules.

An employee may enroll the employee and all eligible dependents for coverage at any time provided that:

1. the employee is eligible for coverage under the plan but is not currently enrolled;
2. the employee declined coverage under the plan when it was offered previously due to being enrolled in alternative health coverage; and
3. the alternative coverage has terminated, because either:
 - a. the alternative coverage was Six Months Continuation Coverage or COBRA Coverage that has been exhausted; or
 - b. eligibility for the alternative coverage was lost (for reasons other than the individual's voluntary termination of coverage or failure to pay premiums or for cause); or
 - c. eligibility for Medicaid or Children's Health Insurance Program (CHIP) coverage was lost; or
 - d. employer contributions toward the cost of the coverage terminated; or
 - e. the employee or dependents became eligible for a premium assistance subsidy under Medicaid or CHIP and the employee requests coverage under the plan within 60 days after the date the employee or dependent is determined eligible for the premium assistance.

In this case, the employee must submit a completed enrollment form:

- a. within 31 days of the date on which Six Months Continuation or COBRA coverage was exhausted; or
- b. within 31 days of the date on which the alternative coverage terminated because of loss of eligibility for coverage; or
- c. within 31 days of the date on which employer contributions toward the cost of the coverage terminated; or
- d. within 60 days of the date the employee or dependents became eligible for a premium assistance subsidy under Medicaid or CHIP.

Provided the employee submits an enrollment form within the requisite special enrollment period, enrollment in the Plan will be effective the first day of the first calendar month following the date on which the Plan receives the completed enrollment form.

In addition, an enrolled employee may enroll all eligible dependents for coverage at any time provided that:

1. the dependent is eligible for coverage under the plan but is not currently enrolled;
2. the dependent declined coverage under the plan when it was offered previously due to being enrolled in alternative health coverage; and
3. the alternative coverage has terminated, because either:
 - a. the alternative coverage was Six Months Continuation Coverage or COBRA Coverage that has been exhausted; or
 - b. eligibility for the alternative coverage was lost (for reasons other than the individual's voluntary termination of coverage or failure to pay premiums or for cause); or
 - c. eligibility for Medicaid or Children's Health Insurance Program (CHIP) coverage was lost; or
 - d. employer contributions toward the cost of the coverage terminated; or
 - e. the employee or dependents became eligible for a premium assistance subsidy under Medicaid or CHIP and the employee requests coverage under the plan within 60 days after the date the employee or dependent is determined eligible for the premium assistance.

In this case, the employee must submit a completed enrollment or change form:

- a. within 31 days of the date on which Six Months Continuation or COBRA Coverage was exhausted; or
- b. within 31 days of the date on which the alternative coverage terminated because of loss of eligibility for coverage; or
- c. within 31 days of the date on which employer contributions toward the cost of the coverage terminated; or
- d. within 60 days of the date the employee or dependents became eligible for a premium assistance subsidy under Medicaid or CHIP.

Provided the employee submits an enrollment or change form within the requisite special enrollment period, enrollment in the Plan will be effective the first day of the first calendar month following the date on which the Plan receives the completed enrollment or change form.

Qualified Medical Child Support Orders

The Plan Administrator shall enroll for immediate coverage under this Plan any Alternate Recipient who is the subject of a Medical Child Support Order that is a “Qualified Medical Child Support Order” (QMCSO) if such an individual is not already covered by the Plan as an Eligible Dependent, once the Plan Administrator has determined that such order meets the standards for qualification set forth below.

Alternate Recipient shall mean any Child of a Participant who is recognized under a Medical Child Support Order as having a right to enrollment under this Plan as the Participant’s Eligible Dependent. For purposes of the benefits provided under this Plan, an Alternate Recipient shall be treated as an Eligible Dependent, but for purposes of the reporting and disclosure requirements, an Alternate Recipient shall have the same status as a Participant.

Medical Child Support Order shall mean any judgment, decree or order (including approval of a domestic relations settlement agreement) issued by a court of competent jurisdiction that:

1. Provides for child support with respect to a Participant’s Child or directs the Participant to provide coverage under a health benefits plan pursuant to a state domestic relations law (including a community property law); or
2. Enforces a law relating to medical child support described in Social Security Act §1908 (as added by Omnibus Budget Reconciliation Act of 1993 §13822) with respect to a group health plan.

National Medical Support Notice (NMSN) shall mean a notice that contains the following information:

1. Name of an issuing state agency;
2. Name and mailing address (if any) of an employee who is a Participant under the Plan;
3. Name and mailing address of one or more Alternate Recipients (i.e., the child or children of the Participant or the name and address of a substituted official or agency that has been substituted for the mailing address of the Alternate Recipients(s)); and
4. Identity of an underlying child support order.

Qualified Medical Child Support Order is a Medical Child Support Order that creates or recognizes the existence of an Alternate Recipient’s right to, or assigns to an Alternate Recipient the right to, receive benefits for which a Participant or Eligible Dependent is entitled under this Plan. In order for such order to be a QMCSO, it must clearly specify the following:

1. The name and last known mailing address (if any) of the Participant and the name and mailing address of each such Alternate Recipient covered by the order;
2. A reasonable description of the type of coverage to be provided by the Plan to each Alternate Recipient, or the manner in which such type of coverage is to be determined;
3. The period of coverage to which the order pertains; and
4. The name of this Plan.

In addition, a National Medical Support Notice shall be deemed a QMCSO if it:

1. Contains the information set forth above in the definition of “National Medical Support Notice”;
2. Identifies either the specific type of coverage or all available group health coverage. If the Employer receives an NMSN that does not designate either specific type(s) of coverage or all available coverage, the Employer and the Plan Administrator will assume that all are designated; or
Informs the Plan Administrator that, if a group health plan has multiple options and the participant is not enrolled, the issuing agency will make a selection after the NMSN is qualified, and, if the agency does not respond within 20 days, the child will be enrolled under the Plan’s default option (if any); and

3. Specifies that the period of coverage may end for the Alternate Recipient(s) only when similarly situated dependents are no longer eligible for coverage under the terms of the Plan, or upon the occurrence of certain specified events.

However, such an order need not be recognized as “qualified” if it requires the Plan to provide any type or form of benefit, or any option, not otherwise provided to the Participants and Eligible Beneficiaries without regard to this provision, except to the extent necessary to meet the requirements of a state law relating to medical child support orders, as described in Social Security Act §1908 (as added by Omnibus Budget Reconciliation Act of 1993 §13822).

Upon receiving a Medical Child Support Order, the Plan Administrator shall, as soon as administratively possible:

1. Notify the Participant and each Alternate Recipient covered by the Order (at the address included in the Order) in writing of the receipt of such Order and the Plan’s procedures for determining whether the Order qualifies as a QMCSO; and
2. Make an administrative determination if the order is a QMCSO and notify the Participant and each affected Alternate Recipient of such determination.

Upon receiving a National Medical Support Notice, the Plan Administrator shall:

1. Notify the state agency issuing the notice with respect to the child whether coverage of the child is available under the terms of the Plan and, if so:
 - (a) Whether the child is covered under the Plan; and
 - (b) Either the effective date of the coverage or, if necessary, any steps to be taken by the custodial parent or by the official of a state or political subdivision to effectuate the coverage; and
2. Provide to the custodial parent (or any state official serving in a substitute capacity) a description of the coverage available and any forms or documents necessary to effectuate such coverage.

To give effect to this requirement, the Plan Administrator shall:

1. Establish reasonable, written procedures for determining the qualified status of a Medical Child Support Order or National Medical Support Notice; and
2. Permit any Alternate Recipient to designate a representative for receipt of copies of the notices that are sent to the Alternate Recipient with respect to the Order.

Transfer of Coverage

If a husband and wife are both employees and are covered as employees under this plan, and one of them terminates, the terminating spouse and any of his eligible and enrolled dependents will be permitted to immediately enroll under the remaining employee's coverage. Such new coverage shall be deemed a continuation of prior coverage and shall not operate to reduce or increase any coverage to which such person was entitled while enrolled as an employee or as a dependent of the terminated employee.

Clergy Change of Appointment

If an enrolled clergy has an appointment change, he/she and all eligible dependents will be given the opportunity to transfer from this PPO Plan to the High Deductible Plan, or alternately, from the High Deductible Plan to this PPO Plan, if he/she so chooses. This change must be made within 31 days of the change in appointment.

Adjustments for Prior Coverage

To the extent that coverages hereunder are a replacement of the prior plan offered by the Employer Group, any deductibles satisfied, with respect to such covered persons under the prior coverage, will be deemed to be deductibles satisfied under the Plan. Any contiguous periods a covered person was covered under prior coverage(s) of the Employer Group will be deemed to be time covered under the Plan. Documentation of satisfied deductibles is the responsibility of the covered person.

UTILIZATION MANAGEMENT PROGRAM

Call (800) 477-4625 or (512) 454-5112

The Plan's Utilization Management ("UM") Program is designed to provide covered individuals with quality medical care in a cost-effective manner. The Utilization Management company does not diagnose or treat medical conditions.

The Plan's Utilization Management company is Capitol HealthCare Review, Inc. ("CHR") dba Prime Dx.
Prime Dx, PO Box 9201, Austin, TX 78766
Phone: (800) 477-4625 or (512) 454-5112
Confidential Fax: (512) 454-1624 or (800) 213-5108

Covered employees receive an identification card that contains instructions concerning the UM Program on the back of the card. It should be carried by the employee at all times and shown to all health care providers.

The Utilization Management Program requires that a covered person call Prime Dx in certain instances as described below. It is the covered person's responsibility to ensure that the call is made in a timely manner; however, the covered person's family or health care provider can make the call.

Medical services requiring pre-certification can be pre-certified after the fact; however, when pre-certification is not obtained in advance, the participant runs the risk that the service may not be a covered benefit under the plan, or that the service may be determined not to be medically necessary or not to be appropriate standard of care, in which case the participant would receive no benefits under the plan and would be responsible for all charges. (Please see definition of Medically Necessary below).

Urgent or Emergency Hospital Admission Review

The covered person (or family member or health care provider) should call Prime Dx on the first business day after an urgent or emergency hospitalization. Prime Dx will review the medical necessity of the admission and length of stay and notify the individual or the provider whether the admission and the length of stay are authorized.

Non-Emergency Hospital Pre-Admission Review

The covered person (or family member or health care provider) must call Prime Dx at least five days before a scheduled non-emergency hospitalization. Prime Dx will review the medical necessity of the proposed admission and length of stay and notify the individual or the provider whether the admission and the length of stay are authorized.

Continued Hospital Stay Review

If a covered person needs to stay in the hospital longer than originally authorized, the covered person (or family member or health care provider) must contact Prime Dx as soon as possible. Prime Dx will review the medical necessity of the request and notify the individual or the provider whether the additional stay is authorized as medically necessary.

Review of Additional Services

Pregnancy

The covered person (or family member or health care provider) must call Prime Dx within thirty days of learning that the covered person is pregnant.

Transplant

The covered person (or family member or health care provider) must call Prime Dx within five days of the covered person becoming a possible candidate for an organ transplant.

Skilled Nursing Facility Admission

The covered person (or family member or health care provider) must notify Prime Dx as soon as possible prior to being admitted to a skilled nursing facility.

Review of Outpatient Services

The covered person (or family member or health care provider) should call Prime Dx at least three business days before the following scheduled outpatient procedures or services:

- Arthroscopy, Diagnostic & Surgical
- Blepharoplasty
- Cardiac Catheterization and/or Surgery
- Carpal Tunnel Surgery
- Chemotherapy – Initial treatment and/or changes to treatment plan
- Dialysis
- Durable Medical Equipment – Renting or purchasing if the cost exceeds \$1,000
- High Tech Radiology (included but not limited to MRIs, CT Scans and PET Scans)
- Home Health Care
- Hospice Care
- Infusions or Injections for which billed charges are over \$500
- Outpatient Services performed at a Skilled Nursing Facility
- Physical, Occupational, or Speech Therapy
- Radiation Therapy – Initial treatment and/or changes to treatment plan
- Septoplasty

Medically Necessary or Medical Necessity

Medically Necessary – When a service, treatment, device, drug, or supply is necessary and appropriate for the diagnosis or active treatment of an illness or injury based on generally accepted medical practice.

To be Medically Necessary, Covered Expenses must:

- *be rendered in connection with an Injury or Illness;*
- *be consistent with the diagnosis and treatment of your condition;*
- *be in accordance with the standards of good medical practice; and*
- *be provided at the most appropriate level of care or in the most appropriate type of health care facility.*

Only your medical condition (not the financial status or family situation, the distance from a facility or any other non-medical factor) is considered in determining which level of care or type of health care is appropriate.

Medically Necessary is the criteria by which the Plan Administrator determines the necessity of medical service and treatment under this Plan.

The fact that any particular Physician may prescribe, order, recommend or approve a service, treatment, device, drug or supply does not, of itself, make it Medically Necessary.

A service, treatment, device, drug, or supply will not be considered Medically Necessary if:

- it is provided only as a convenience to the Covered Person or provider;
- it is not appropriate treatment for the Covered Person's diagnosis or symptoms;
- it exceeds (in scope, duration or intensity) that level of care that is needed to provide safe, adequate and appropriate diagnosis or treatment;
- it is part of a plan of treatment that is considered to be Investigative, Experimental or for Research Purposes in the diagnosis or treatment of an Illness or Injury. "Investigative, Experimental or for Research Purposes" means services or supplies not recognized or proven to be effective treatment of an Illness or Injury in accordance with generally accepted medical practice, based on consultation with an appropriate source; or
- it involves the use of a drug or substance not formally approved by the United States Food & Drug Administration, even if approval is not required, or if it involves the use of a drug or substance that cannot be lawfully marketed without the approval of the Food and Drug Administration or other appropriate governmental agency, such approval not having been granted at the time of use or proposed use;
- is generally, commonly, and customarily regarded by experts who regularly practice in the area of treatment of the particular disease or condition in question as a drug, treatment, device, procedure, or other service whose usage should be substantially confined to research settings, as set forth in the published authoritative literature; or
- is being provided pursuant to a Food and Drug Administration Phase I or Phase II clinical trial or as the experimental or research arm of a Phase III clinical trial.

The sources of information to be relied upon are:

- the published authoritative medical or scientific literature regarding the drug, treatment, device, procedure, or other service at issue as it is applied to the particular Injury or Sickness at issue;
- a Covered Person's medical records;
- protocol pursuant to which the treatments is to be delivered; or
- any regulations and publications set forth by any governmental agency.

In the event the *Plan Administrator* determines that a service is not *medically necessary*, but the applicable *network* or *network provider* determines that a service is *medically necessary*, the *Plan* will consider the claim to be *medically necessary* if required by the applicable *network* agreement.

Case Management

Prime Dx will assign a case manager when it believes a patient's condition requires complex, specialty or long-term care. The case manager will attempt to coordinate health care services through direct interaction with the covered person, his family, or his physician in an effort to achieve quality care in a cost effective manner. Case management may occur in an inpatient or an outpatient setting.

Notice to Covered Persons about Medical Case Management ("MCM")

Medical Case Management allows the development of an appropriate and cost effective Treatment Plan for a patient suffering from a serious Illness or Injury, such as: premature birth, terminal Illness, stroke, heart attack, or brain Injury. MCM is provided without an additional charge by the Plan to Covered Persons and is administered by a national MCM firm.

The benefits of using MCM include:

- A medical professional is "assigned" to you by the case manager and is available to assist you, as well as to address your questions and concerns;

- A Treatment Plan is created which may allow flexibility with respect to the Plan's Coverage provisions;
- The Treatment Plan is coordinated between the patient, the primary Physician and other care givers; and
- MCM can often negotiate discounts on special equipment and required supplies.

Once the patient and the Plan agree to use MCM, a nurse coordinator will review the details of the case, evaluate the current Treatment Plan, and possibly recommend an alternative Treatment Plan that is both appropriate and cost effective.

If the Treatment Plan recommended by MCM is approved by the patient and the Physician, the MCM firm will request the Plan Administrator's cooperation. The Plan Administrator may or may not decide to Cover the alternative Treatment Plan. If the Plan does not agree to the alternative Treatment Plan, your regular Plan Benefits will apply.

Second Opinion

At any time during the UM process, Prime Dx may ask the covered person to obtain a second opinion about the medical necessity of a proposed surgery, procedure or health care treatment. The physician providing the second opinion will be chosen by Prime Dx. If the covered person does not obtain the second opinion no benefits will be paid by the Plan.

Plan Administrator Utilization Management Discretion

The Plan Administrator shall have the discretion to alter or waive the normal provisions of the Plan when it is reasonable to expect a cost-effective result without sacrificing the quality of care.

Effect of Obtaining an Authorization

The authorization of admission, care or services does not guarantee the payment of benefits. Eligibility and payment of benefits are subject to all of the terms and provisions of the Plan.

Disease Management

If you (or a covered dependent) are suffering from a chronic health condition, the Disease Management Program can help. Provided through Boon-Chapman, the program provides information and resources you can use to better manage chronic conditions. The program is free of charge to active participants of the PPO medical plans.

What is a chronic condition?

A chronic condition usually requires regular or periodic visits to a provider for treatment, continues over an extended time (usually three months or more), and may cause episodes of incapacity or continued incapacity. The common chronic conditions covered by the Disease Management Program are:

- Asthma
- Coronary artery disease
- Congestive heart failure
- Diabetes
- High blood pressure
- High cholesterol

About the Disease Management Program

The program integrates clinical physician care, assessment information, claims and pharmacy data to identify participants with certain medical conditions and provide some level of case management or intervention, along with incentives for participation and reaching certain milestones. With dual goals of improving your health and helping hold down costs, the program strives to:

- Achieve consistency in long-term management

- Improve participant's understanding of his or her condition
- Increase provider awareness and participation
- Initiate earlier collaboration between the medical plan and physician
- Promote improved compliance with treatment protocols
- Monitor participant condition, including consideration of other health conditions and lifestyle issues
- Reduce emergency room/inpatient admissions

The program is founded on clinical practice guidelines from nationally recognized sources such as the American Diabetes Association.

Disease Management Program Participation Incentives

If you qualify for the Disease Management Program (based on prior medical claims, prescription drug utilization and/or risk factors identified in the Wellness Program), you may be eligible for certain incentives. Incentives are based on the severity of the condition.

- **\$50 incentive** when you participate in a baseline assessment (performed by a registered nurse)
- **\$25 incentive** for each milestone completed (continues as long as you qualify to receive them)
- **Baseline assessment:** Comprehensive medical and psychosocial evaluation (30 minutes to one hour)

Milestone Assessments:

- High-intensity assessment (every three months)
- Moderate-intensity assessment (every six months)
- Low-intensity assessment (every 12 months)

Diabetic Advanced Glucose Monitoring Benefit

Diabetics enrolled in the Disease Management Program and participating in baseline and regular milestone assessments are eligible for a special blood glucose monitoring benefit provided through ActiveCare. This benefit provides the diabetic participant a free, state-of-the-art cellular-enabled glucometer, as well as free test strips and lancets (some or all of the cost of replacement glucometers may be the responsibility of the participant). This glucometer would enable the diabetic to access their test results from a smart phone via a secure web portal and would also allow the participant to share test results with their physicians and the disease management nurse.

Comprehensive Diabetes Management Incentive (Standard of Care Treatment)

Diabetics enrolled in the Disease Management Program are eligible to participate in the Comprehensive Diabetes Management Incentive (Standard of Care Treatment). The incentive is payable if the participant meets the following qualifications and is in addition to any other incentives. This incentive, as with all other Disease Management incentives, is authorized by the Disease Management nurse. Requirements include:

- A1C test every 3 or 6 months
- Yearly lipid panel
- Yearly micro albumin urine test
- Yearly comprehensive foot exam
- Yearly dilated eye exam
- Monitor glucose at home

If you have any questions regarding the Disease Management Program, please contact Boon-Chapman (Prime Dx) at 1-800-477-4625.

Wellness Program

(Includes benefits effective January 1, 2016 approved at Annual Conference 2016)

The Center for Clergy Excellence Group Health Benefits Wellness Program is designed to improve the health and well-being of the clergy and laity of the Texas Annual Conference.

Alternative Wellness Program

Your health plan is committed to helping you achieve your best health. Rewards for participating in the Wellness Program are available to all participants in the Group Health Plan. If you think you might be unable to meet a standard for a reward under this Wellness Program, you might qualify for an opportunity to earn the same reward by different means. Contact Barbara Kilby, Benefits Administrator, at bkilby@txcumc.org, 1-800-606-0350 or 713-533-3702, and we will work with you (and if you wish, your doctor) to find a Wellness Program with the same reward that is right for you in light of your health status.

Day of Wellness with Methodist Hospital

The Texas Annual Conference has made arrangements to work with the Methodist Hospital Wellness Center to identify a Personal Wellness Vision for yourself and to identify the resources to help you reach your goals.

Day of Wellness Activities	
2 Sessions on Nutrition	2 Sessions on Fitness
Health Risk Appraisal (HRA)	Personal Coaching on Biometric Screening and HRA results
Biometric Screening (Cholesterol, Triglycerides, Glucose, Weight and Blood Pressure)	
Stress Management	

The Day of Wellness with Methodist Hospital is the entry point into the Center for Clergy Excellence Group Health Benefits Wellness Program for employee/dependent spouse participants of the Group Health Benefits Program of the Texas Annual Conference. Eligible employee/dependent spouse participants in the Wellness Program can receive up to \$2,000 in cash incentives as they achieve their wellness goals (please see Incentives).

During the day you will participate in six informative and experiential sessions (three in the morning and three in the afternoon with a delicious, nutritious lunch in between):

1. Receive 1 to 1 personal coaching on your Health Risk Appraisal; Biometric Screening including cholesterol, triglycerides, glucose, weight and blood pressure; and your target Body Mass Index (BMI)
2. Learn balanced nutrition and weight loss techniques
3. Taste a variety of Super Foods – your palate will be pleasantly surprised with these nutrition “superstars”
4. Build muscle tone with strengthening exercises (no machines – just flexible bands)
5. Relax and stretch muscles with gentle flexibility exercises
6. Learn stress triggers and practical ways of managing stress

Registration for the Day of Wellness is limited to 36 – 40 participants. ***A \$175 registration fee must be submitted with each registration form to guarantee the participant’s registration.*** If you are a TAC employee/dependent spouse participant of the Group Health Benefits program, your registration fee will be refunded to you upon your completion of the Day of Wellness. For other participants, the cost is \$175 per person. Registration fees are also returned if registration is cancelled by the cancellation deadline. For further information, please contact Nancy Slade at nslade@txcumc.org or 713-521-9383, ext. 322.

Who is eligible to participate?

The Center for Clergy Excellence Group Health Benefits Wellness Program is open to all clergy, laity, and spouses of the Texas Annual Conference.

Following are the categories of participants in the TAC Group Health Benefits program who are eligible to participate in the Group Health Benefits Wellness Program *without charge and earn incentives*:

1. TAC clergy (active or early retiree) enrolled in the TAC Standard PPO or High Deductible PPO plans.
2. Active lay employees of the TAC Fiscal Office enrolled in the TAC Standard PPO or High Deductible PPO plans.
3. Spouses and surviving spouses enrolled in the TAC Standard PPO or High Deductible PPO plans.

Following are the categories of individuals who are eligible to participate in the Day of Wellness with Methodist Hospital *at a cost of \$175 and are not eligible for incentives*:

1. Part-time clergy, clergy serving in extension ministries (other than those employed by the Texas Annual Conference) and retired clergy (retired clergy have access to a wellness program through the UnitedHealthcare Senior Supplement or Humana Medicare Advantage Plans). Clergy in extension ministries (not employed by the Texas Annual Conference) may be able to have their employer pay the cost of the program.
2. Laity employed by local churches, district offices or the Annual Conference who are not participants in the Group Health Benefits program.
3. Spouses of clergy or laity who are not participants in the TAC Group Health Benefits Program (regardless of whether the clergy or laity participates for free).
4. Members of local United Methodist churches or friends of the Texas Annual Conference with the approval of the Director of the Center for Clergy Excellence.

Incentives

For those individuals who participate in the Group Health Benefits Wellness Program at no charge (employee/dependent spouse participants), the following incentives are available to assist you in achieving your specific goals. In all cases, the individual will be required to complete the Wellness Program Incentive Form regarding their participation in the components of the program. For the \$400, \$600, and \$1,000 incentives, the participant will be required to obtain an annual physical exam and submit a form from their physician indicating their current weight. Forms are available at <http://www.txcumc.org/benefits>. *Please note that all incentives are taxable and that a form 1099 will be generated by the Texas Annual Conference when appropriate.*

Following are the incentives for the Group Health Benefits Wellness Program. Incentives 1 – 4 may be combined (for example, level 1, 2, 3 and 4 can all be filed at once provided all requirements have been satisfied). A participant can only earn an incentive one time (for example, the \$200 incentive for losing 5% of your total body weight can only be earned once). **The total Wellness Program weight loss and annual maintenance incentives that can be earned in a calendar year is limited to \$2,000 per participant:**

1. Losing 5% of your total starting body weight – \$200 incentive
2. Losing 10% of your total starting body weight – \$200 incentive
3. Losing 50% of the weight required to achieve a BMI of 25 or lower – \$600 incentive
4. Losing 100% of the weight required to achieve a BMI of 25 or lower – \$1,000 incentive
5. Being at a BMI of 25 or less at the Day of Wellness and maintaining it for 6 months – \$400 incentive
6. Annual Maintenance Incentive for maintaining a BMI of 25 or lower – \$1,000 incentive
This can only be requested once annually. The Annual Maintenance Incentive from must be received by 12/31 of the year for which the incentive is requested and must be at least 6 months from the last incentive payment request.
7. Pregnancy Incentive – Women who return to their first trimester weight within 12 months of delivery are eligible for a Pregnancy Weight Loss Incentive of \$2,000 in addition to other eligible incentives. This incentive is retroactive to January 1, 2008.
8. Prior Weight Loss Incentive – Participants who lost weight after February 2008 and prior to attending the Day of Wellness may be eligible for Incentives 1 – 4 above by submitting appropriate documentation to verify prior weight loss such as a doctor's statement, Weight Watcher's journal, or other written documentation from a health care professional.

Documentation required:

Incentives 1 and 2 require completion of the Group Health Benefits Wellness Program Incentive Form, which provides the Group Health Benefits Committee with confirmation regarding the following:

1. Eligibility for the incentives.
2. Date attended the Day of Wellness with Methodist Hospital.
3. Starting weight (from the Day of Wellness) and current weight.
4. Exercising the body at least three times per week for a minimum of 20 minutes.
5. Eating nutritious meals.
6. Participation in a small group spiritual experience.
7. Obtaining an annual physical (only required when filing for incentives at level 3, 4 and 5).

Incentives 3, 4, 5, 6, 7 and 8 require an annual physical exam, completion of the appropriate Group Health Benefits Wellness Program Incentive Form and Physician Confirmation Form.

Due to new government regulations that limit the frequency, type and maximum amount of incentives payable under a Wellness Program, the total Wellness Program weight loss and annual maintenance incentives that can be earned in a calendar year is limited to \$2,000 per participant. This does not include quarterly incentives earned under the Walking Program. In addition, the “A-la-carte” Fitness Rebate has been suspended, and the Lenten Weight Loss Incentive has been terminated. Due to regulations eliminating Wellness Program incentives for children, the TAC Group Health Young Adult (ages 18 to 26) and Youth (ages 12 to 17) Walking Programs have been terminated.

Body Mass Index (BMI)

Body Mass Index, often referred to as BMI, is used to assess weight relative to height and is calculated by dividing body weight in kilograms by height in meters squared. BMI correlates highly with body fat and is a good indicator of total body composition. A Body Mass Index value which exceeds the normal range is significantly related to negative health outcomes.

BMI Ranges:

- Underweight: less than 18.5
- Normal: 18.5 - 24.9
- Overweight: 25 - 29
- Obese: 30 or greater

Determining your Body Mass Index (BMI)

The table below has already done the math and metric conversions. To use the table, find the appropriate height in the left-hand column. Move across the row to the given weight. The number at the top of the column is the BMI for that height and weight. Or, use our [BMI calculator](#) on the TAC website. *For the Wellness Program, the target is a BMI of 25 or lower.*

BMI (kg/m²)	19	20	21	22	23	24	25	26	27	28	29	30	35	40
Height (in.)	Weight (lb.)													
58	91	96	100	105	110	115	119	124	129	134	138	143	167	191
59	94	99	104	109	114	119	124	128	133	138	143	148	173	198

Components of the Group Health Benefits Wellness Program

Following are the six components of the Group Health Benefits Wellness Program:

1. Participation in the Day of Wellness with Methodist Hospital
2. Measurable progress towards achieving the target BMI of 25 or less.
3. Exercising the body at least three times per week for a minimum of 20 minutes.
4. Eating nutritious meals.
(Participation in Weight Watchers® or some other organization is highly encouraged)
5. Participation in a small group spiritual experience
(Laity may substitute their weekly church attendance for this component).
6. Having an annual physical exam.

Other Information

It is the desire of the Texas Annual Conference that all participants achieve their specific objectives under the Wellness Program. For those individuals who choose to participate, various resources will be provided throughout the year to support the participant in their goals. These resources will include information provided from the Employee Assistance Plan, lists of websites that provide additional information and other suggestions intended to encourage and assist participants in the achievement of their goals.

Finally, the Group Health Benefits Committee reserves the right to modify or terminate this program at any time. In addition, any disputes or misunderstandings will be resolved by the Group Health Benefits Executive Committee and their determination will be final.

Questions

Any questions regarding participation, incentives, definitions or anything else related to this program should be directed to Rev. Gail Ford Smith, Director of the Center for Clergy Excellence.

Virgin Pulse Walking Program

The following categories of participants who are enrolled in the TAC Standard PPO or High Deductible PPO Plans are eligible to participate in TAC-sponsored Virgin Pulse Walking Program: TAC clergy (active and early

retiree), active lay employees of the TAC Fiscal Office, spouses and surviving spouses. *Group Health Plan participants do not have to attend a Day of Wellness to participate in the Walking Program.*

Walking Program Incentives

Once you enroll you will earn points for the steps recorded on your pedometer and for other activities. As you reach various point levels during each quarter, you will earn incentives as described below which are distributed through your Virgin Pulse personal account.

Virgin Pulse Walking Program Incentives		
Points Reached	Incentive Earned	Total for Quarter
1,000	\$25	\$25
5,000	\$50	\$75
10,000	\$50	\$125
15,000	\$25	\$150

MEDICAL CARE COVERAGES

Eligible Medical Expenses

Except as otherwise noted below or in the medical schedule of benefits, eligible medical expenses are the maximum eligible charges for services listed below that are incurred by a covered person, subject to the "Definitions" and "Limitations and Exclusions" sections and all other provisions of the plan document. In general, services and supplies must be approved by a physician and must be medically necessary (see explanation below) for the care and treatment of a covered sickness, accidental injury, pregnancy, or other covered health care condition.

Medically Necessary or Medical Necessity

Medically Necessary – When a service, treatment, device, drug, or supply is necessary and appropriate for the diagnosis or active treatment of an Illness or Injury based on generally accepted medical practice.

To be Medically Necessary, Covered Expenses must:

- *be rendered in connection with an Injury or Illness;*
- *be consistent with the diagnosis and treatment of your condition;*
- *be in accordance with the standards of good medical practice; and*
- *be provided at the most appropriate level of care or in the most appropriate type of health care facility.*

Only your medical condition (not the financial status or family situation, the distance from a facility or any other non-medical factor) is considered in determining which level of care or type of health care is appropriate.

Medically Necessary is the criteria by which the Plan Administrator determines the necessity of medical service and treatment under this Plan.

The fact that any particular Physician may prescribe, order, recommend or approve a service, treatment, device, drug or supply does not, of itself, make it Medically Necessary.

A service, treatment, device, drug, or supply will not be considered Medically Necessary if:

- it is provided only as a convenience to the Covered Person or provider;
- it is not appropriate treatment for the Covered Person's diagnosis or symptoms;
- it exceeds (in scope, duration or intensity) that level of care that is needed to provide safe, adequate and appropriate diagnosis or treatment;
- it is part of a plan of treatment that is considered to be Investigative, Experimental or for Research Purposes in the diagnosis or treatment of an Illness or Injury. "Investigative, Experimental or for Research Purposes" means services or supplies not recognized or proven to be effective treatment of an Illness or Injury in accordance with generally accepted medical practice, based on consultation with an appropriate source; or
- it involves the use of a drug or substance not formally approved by the United States Food & Drug Administration, even if approval is not required, or if it involves the use of a drug or substance that cannot be lawfully marketed without the approval of the Food and Drug Administration or other appropriate governmental agency, such approval not having been granted at the time of use or proposed use;
- is generally, commonly, and customarily regarded by experts who regularly practice in the area of treatment of the particular disease or condition in question as a drug, treatment, device, procedure, or other service whose usage should be substantially confined to research settings, as set forth in the published authoritative literature; or
- is being provided pursuant to a Food and Drug Administration Phase I or Phase II clinical trial or as the experimental or research arm of a Phase III clinical trial.

The sources of information to be relied upon are:

- the published authoritative medical or scientific literature regarding the drug, treatment, device, procedure, or other service at issue as it is applied to the Injury or Sickness at issue;
- a Covered Person's medical records;
- protocol pursuant to which the treatments is to be delivered; or
- any regulations and publications set forth by any governmental agency.

For benefit purposes, medical expenses shall be deemed to be incurred on the latest of the following dates:

- the date a purchase is contracted;
- the date delivery is made; or
- the actual date a service is rendered.

Abortion

Covered expenses are limited to abortions that eliminate a substantial danger to the mother's life, but expenses incurred due to medical complications arising from an abortion are also covered.

Alcohol, Drug or Substance Abuse/Chemical Dependency

All care must be pre-certified. Plan or lifetime limit of three (3) separate series of treatments. See Schedule of Benefits for additional information.

Allergy Testing

See Schedule of Benefits for possible limitations.

Ambulance

Professional local ambulance service by a state-licensed ambulance company to the nearest hospital in connection with care for a medical emergency or accidental injury.

Ambulatory Surgical Center/Licensed Surgical Facility

Anesthesia

The charges made for anesthetics and by a physician or nurse anesthetist for the administration of anesthesia. If both an anesthetist and a nurse anesthetist are utilized, covered charges are limited to maximum eligible charges of an anesthetist for the covered operative procedure.

Assistant Surgeon

The Plan will cover charges by an assistant surgeon when Medically Necessary due to the nature of the procedure being performed. The Plan will allow up to twenty-five percent (25%) of the primary surgeon's Covered Expenses.

Attention Deficit Disorder/Attention Deficit Hyperactivity Disorder (ADD/ADHD)

Treatment may include any of the following services:

- Initial diagnosis and assessment;
- Psychological, psychiatric and pharmaceutical (medication management) care; or
- Applied behavioral analysis (ABA) therapy.

Does not include services or treatment identified elsewhere as non-covered or excluded such as:

- Investigative/Experimental or unproven;
- Custodial; or
- Educational or services that should be provided through the school district.

Treatment must be considered medically necessary based on clinical information provided by the treating physician.

Autism Spectrum Disorder

Coverage for all generally recognized services prescribed in relation to autism spectrum disorder by the patient's physician in the treatment plan recommended by that physician. The prescribed treatment must be provided by an appropriately licensed, certified, or registered health care practitioner.

Generally recognized services may include:

- Evaluation and assessment services;
- Applied behavioral analysis;
- Behavior training and behavior management;
- Speech therapy;
- Occupational therapy;
- Physical therapy; or
- Medications or nutritional supplements used to address symptoms of autism spectrum disorder.

Benefits for non-rehabilitative treatment of autism are not covered under this plan.

Bariatric Surgery

Eligibility for coverage for Bariatric Surgery will be evaluated once the participant meets the following guidelines as specified below:

- Meet the Eligibility Criteria
- Meet the Qualification Criteria
- Accomplish Pre-Surgical Requirements as Outlined in the Bariatric Surgery Patient Pre-Surgical Checklist
- Sign a letter of Release and Commitment to Adhere to Aftercare Guidelines
- Submit all Required Documentation to Prime Dx/Boon-Chapman
- Choose an In-Network Provider and Facility after Coverage for Bariatric Surgery is Approved

Eligibility Criteria for Bariatric Surgery

- Patient must have been a TAC GHB plan participant for at least three (3) years AND
- Must be between ages 21 and 65.

Qualification Criteria

Patient MUST have the following:

- Documented five-year history of morbid obesity. This criterion must be substantiated in some way (through physician's notes, etc.)
- Body Mass Index (BMI) > 40 or 100 lbs. overweight, or
- BMI > 35 with at least two high risk co-morbidities, such as:
 - Poorly controlled diabetes mellitus
 - Symptomatic sleep apnea not controlled by C-Pap
 - Severe cardio-pulmonary condition
 - Hypertension inadequately controlled with optimal conventional treatment
 - Uncontrolled Hyperlipidemia not amenable to optimal conventional treatment, or
 - Musculoskeletal dysfunction associated with obesity.

Accomplish Pre-Surgical Requirements as Outlined in the Bariatric Surgery Patient Pre-Surgical Checklist

- Attend the Day of Wellness at Methodist Hospital. You *must* take the Methodist Hospital Health Risk Assessment.
- If co-morbidities are identified, you must enroll in the TAC GHB sponsored disease management program and participate for a minimum of six months prior to surgery.
- Obtain written confirmation from two physicians that you:
 - can physically withstand the procedure, and

- are psychologically motivated to change your lifestyle.
- Complete and pass a psychological evaluation by the Krist Samaritan Center (a \$25 co-pay will apply, but the evaluation will not be charged against the EPO maximum of 50 visits per year.) A psychological evaluation must be performed to establish the emotional stability and ability to comply with post-surgical limitations as well as to determine that you are psychologically motivated to change your lifestyle.
- Evaluation of other treatable causes: you must undergo a comprehensive physical evaluation to rule out other treatable causes of morbid obesity. This evaluation will include a review of all prescription drugs.
- Previous Compliance with weight-loss programs:
 - You must demonstrate that you have failed to lose weight under a medically supervised program sponsored by a hospital or other weight loss program, and
 - Demonstrate compliance with physician-directed weight loss program including diet, exercise and behavioral modification for a minimum of one year.

Sign Letter of Release and Commitment to Adhere to Aftercare Guidelines

To be considered for Bariatric Surgery, you must sign a letter of commitment promising that you will follow the aftercare guidelines.

Through the commitment and release letter you commit that:

- you will follow post-surgical protocol to maintain a healthy lifestyle, and
- you will allow the TAC GHB committee and its agents access to Protected Health Information required to track your compliance with pre-surgery and post-surgical care requirements.

The aftercare requirement includes long-term behavioral modification support for at least one year after surgery as prescribed by the treating physician, including but not limited to:

- Compliance with all required follow-up visits as prescribed by your physician,
- Compliance with case management recommendations,
- Exercise counseling,
- Nutritional counseling,
- Psychological support through United Behavioral Health or support group meetings, and
- Enrollment in Prime Dx disease management program, as required.

Submit all Required Documentation to Prime Dx/Boon-Chapman

The following required documentation must be provided prior to evaluation for bariatric surgery:

- Copy of your Personal Wellness Profile from the Methodist Hospital Day of Wellness.
- Your signed TAC GHB Bariatric Surgery Benefit Commitment form. This form is located on the TAC website at <https://www.txcumc.org/files/benefits/bariatricsurgerycommitment.pdf> .
- All documents listed on the Bariatric Surgery Patient Pre-Surgical Checklist found on the last page of the Bariatric Surgery Requirements and Checklist Package located on the TAC website at <https://www.txcumc.org/files/benefits/bariatricreqandchecklist.pdf>.
- Submit all required documentation to:
 - Prime Dx/Boon-Chapman Nursing Department
 - PO Box 9201
 - Austin, TX 78766

Choose a Participating Network Provider and Facility after Coverage for Bariatric Surgery is Approved

- You must use a participating or in-network provider and facility for the procedure to be covered by TAC GHB. *Bariatric surgery is not covered if the surgery is performed by a non-participating or out-of-network provider or performed in a non-participating or out-of-network facility.*
- The Methodist Hospital write-off of deductibles and co-insurance applies for this surgery.

- Choose an appropriate Surgeon and Facility. As a general guideline, the facility should provide the following services in addition to the surgery itself:
 - Preoperative medical consultation and approval
 - Preoperative psychiatric consultation and approval
 - Nutritional counseling
 - Exercise counseling
 - Psychological counseling and
 - Support group meetings.
- Inform the Disease Management nurse.

WHAT IS OR IS NOT COVERED BY TAC GHB?

Coverage under TAC GHB is as Follows:

- In network deductible and co-insurance applies the same as any other condition:
- Panniculectomy (a procedure to remove fatty tissue and excess skin from the lower to middle portions of the abdomen) may be covered at 50% up to \$3,000. *This benefit is only available if the patient is compliant with aftercare guidelines.*
- The following Coverage Limits apply:
 - One Bariatric Surgery per lifetime.
 - Panniculectomy is excluded if the patient does not follow aftercare protocol.

Covered Procedures

- Adjustable Gastric Banding (Lap Banding)
- Vertical Banded Gastroplasty
- Roux-en-Y
- Biliopancreatic Diversion
- Duodenal Switch
- Sleeve Vertical Gastrectomy

Exclusions (the items below are non-covered expenses)

- Gastric Balloon, Intestinal Bypass alone, and Stapling procedures are specifically excluded from this Bariatric Surgery benefit.
- Bariatric Surgery performed by non-participating or out-of-network providers, even if you are in an out-of-area plan.
- Bariatric Surgery will not be covered if you have one or more of the following conditions:
 - Active substance abuse,
 - Defined non-compliance with previous medical care

Note: Once you have Bariatric Surgery, you are no longer eligible to receive incentives for weight loss under the TAC Wellness program.

Birthing Centers

Blood

The charges for blood and blood plasma (if not replaced by or for the patient), including blood processing charges.

Casts, Splints, Trusses, and Surgical Dressings

Chemical Dependency

See Alcohol, Drug or Substance Abuse/Chemical Dependency.

Chemotherapy

Chiropractic Care

Manipulation to correct such vertebral disorders as incomplete dislocation, off-centering, misalignment, fixation, or abnormal spacing. See schedule of benefits for possible limitations.

Clinical Trials (Routine Patient Costs)

The Plan will not terminate coverage, reduce benefits under the Plan, or otherwise discriminate against a Covered Person due to the Covered Person's participation in a Clinical Trial, if the Covered Person meets the following requirements:

- The Covered Person is eligible to participate in a Clinical Trial per the Clinical Trial protocol with respect to treatment of cancer or other life-threatening disease or condition; and
- The Covered Person's participation in such Clinical Trial would be appropriate based upon the Covered Person's eligibility to participate per the Clinical Trial protocol:
 - As concluded by the referring health care professional who is a participating health care provider in the Clinical Trial; or
 - As established by medical and scientific information provided by the Covered Person.

The Plan will not deny, or limit or impose additional conditions on, routine Covered Expenses for services and supplies that are furnished in connection with participation in the Clinical Trial, subject to the "Definitions" and "Limitations and Exclusions" sections and all other provisions of this Plan Document. In no event will the Plan cover services or supplies Out-of-Network unless Out-of-Network benefits are otherwise provided under the Plan.

The Plan may require a Covered Person who desires to participate in a Clinical Trial that is conducted in the State in which the Covered Person resides to participate through a Network Provider, if one or more Network Providers are participating in a Clinical Trial and the Network Provider will accept the Covered Person as a participant in the Clinical Trial.

For purposes of this section, "Clinical Trial" means an "approved clinical trial" as defined in Section 2709 of the Public Health Service Act. Contact the Contract Administrator for additional information.

Contraceptives

The charges for contraceptives both oral and surgical, such as but not limited to birth control pills, Norplant, Depo Provera, and IUD's, are covered expenses.

Developmental Delays (Other Than Learning Disorders)

Treatment may include any of the following services:

- Initial diagnosis and assessment;
- Psychological, psychiatric and pharmaceutical (medication management) care;
- Speech therapy, occupational therapy; and physical therapy.

Does not include services or treatment identified elsewhere as non-covered or excluded such as:

- Investigative/Experimental or unproven;
- Custodial;
- Nutritional-diet supplements; or
- Educational or services that should be provided through the school district.

Treatment must be considered medically necessary based on clinical information provided by the treating physician.

Diabetes

Care and treatment of diabetes for a covered person who has been diagnosed with insulin dependent or non-insulin dependent diabetes; elevated blood glucose levels induced by pregnancy; or another medical condition associated with elevated blood glucose levels for the following services and supplies:

- Diabetes equipment: blood glucose monitors, including monitors for use by the blind; insulin pumps and associated appurtenances; insulin infusion devices; and podiatric appliances for the prevention of complications associated with diabetes.
- Diabetes supplies: test strips for blood glucose monitors; visual reading and urine test strip; lancets and lancet devices; insulin and insulin analogs; injection aids; syringes; prescriptive and nonprescriptive oral agents for controlling blood sugar levels; and glucagon emergency kits.
- Diabetes self-management training: training in the care and management of diabetes provided to a qualified insured after the initial diagnosis of diabetes, including nutritional counseling and proper use of equipment and supplies; and additional training authorized by the physician on a diagnosis of a significant change in the qualified insured's symptoms or conditions which requires a change in the program.

Diagnostic Services

Diagnostic Laboratory and X-ray Expenses, including charges for electrocardiograms, electroencephalograms, pneumoencephalograms, basal metabolism tests, or similar diagnostic tests generally approved by physicians throughout the United States. Diagnostic services (those imaging and laboratory capabilities) are used to determine the cause of an illness or disorder. Diagnostic services start when you already have signs of a health problem; therefore, your doctor may order tests to further diagnose your condition. Services considered as diagnostic in nature will apply towards your annual deductible and coinsurance. See "Pre-Admission Testing" for further information.

Preventive Diagnostic Services – While most imaging services and laboratory services are diagnostic in nature, some diagnostic services are used in preventive care (for example, a mammogram may be used as diagnostic or preventive). Preventive care refers to services that can help you stay healthy and identify problems early. These services are called preventive because they can help "prevent" serious health problems and are covered at 100% under your plan.

Disease Management Program

The plan provides a voluntary Disease Management Program (the "DM") for Covered Persons who are identified as having certain chronic illnesses that are designated for Coverage under the DM. The intended purpose of the DMP is to identify and contact such chronically ill Covered Persons and proactively assist them in managing their Illnesses for better health and lower healthcare costs.

Covered Persons are eligible to join the DM when they are identified by the Plan Administrator or its delegate as meeting the specific criteria for participation in the DM which is established by the Plan Administrator.

The DM provides coverage for certain health care services, which may include diagnosis, treatment, management, education and access to health care specialists, for the following chronic illnesses:

- Asthma
- Coronary artery disease
- Congestive heart failure
- Diabetes
- High-risk maternity, and
- Hypertension

Covered Persons participating in the DM will receive a \$50 incentive for participating in a baseline assessment as well as a \$25 incentive for each milestone completed.

Drug or Substance Abuse

See Alcohol, Drug or Substance Abuse/Chemical Dependency.

Durable Medical Equipment

Rental of durable medical equipment (but not to exceed the purchase price) or purchase of such equipment, where only purchase is permitted, prescribed by a physician and required for temporary (generally for a period not to exceed six months) therapeutic use in treatment of an active sickness or accidental injury.

Durable medical equipment includes such items as orthotics, braces, crutches, wheelchairs, hospital beds, iron lungs, dialysis equipment, Glucometers, Dextrometers, etc., that:

- can withstand repeated use;
- are primarily and customarily used to serve a medical purpose;
- generally are not useful to a person in the absence of sickness or accidental injury; and
- are appropriate for use in the home.

Purchase or rental of luxury medical equipment (e.g., motorized wheelchairs or other vehicles or bionic or computerized artificial limbs) is not covered when standard equipment is appropriate for the patient's condition.

Home Health Care

Covered expenses are limited to those for services listed herein that are furnished by a home health care agency to a covered person who is under the care of a physician. Home health care services must be furnished in accordance with a home health care plan that is established by the attending physician, and the orders must be renewed at least every 30 days. The attending physician must also certify that the proper treatment of the sickness or accidental injury would require confinement as a resident in-patient in a hospital or skilled nursing facility in the absence of the services and supplies provided as part of the home health care plan.

Covered expenses for home health care visits are limited to those made by:

- a registered graduate nurse (R.N.), a licensed practical nurse (L.P.N.), or a licensed vocational nurse (L.V.N.);
- home health aides under supervision of a R.N.;
- physical, occupational, and speech therapists; or
- a licensed midwife.

You must be homebound, and a doctor must certify that you're homebound. To be homebound means the following:

- Leaving your home isn't recommended because of your condition;
- Your condition keeps you from leaving home without help (such as needing special transportation, using a wheelchair or walker, or getting help from another person);
- Leaving home takes a considerable and taxing effort.

A person may leave home for medical treatment or short, infrequent absences for non-medical reasons, such as attending religious services. You can still get home health care if you attend adult day care, but you would get the home care services in your home.

Covered home health care expenses will also include medical supplies, drugs, and medicines prescribed by a physician, laboratory services, and special meals prescribed by a physician, nutritionist or dietitian, but only to the extent that such charges would have been covered if the covered person had remained in the hospital.

Home Infusion Therapy

Hospice

Covered expenses are limited to hospice care approved every thirty (30) days by the utilization review organization. In addition, eligible expenses are limited to charges for the following services provided by a hospice care program for the care of a covered person with a physician-diagnosed life expectancy of 6 months or less:

- nursing care by a registered graduate nurse, a licensed practical nurse, a licensed vocational nurse, or a public health nurse who is under the direct supervision of a registered nurse;
- physical therapy and speech therapy when rendered by a licensed therapist;
- medical services, supplies, and drugs; or
- physician's services.

In addition, bereavement counseling is a covered expense if provided by a hospice care program to a covered person's spouse, children, or parents within twelve (12) months of the death of a covered person who was in a hospice care program at the time of death. See schedule of benefits for possible limitations.

Hospital Services

For a medically necessary confinement, the plan covers:

- daily room and board charges based on the average semi-private room rate. If the hospital has only private rooms, the plan will cover the hospital's most standard rate for the private room;
- private room charges will be covered if medically necessary by the patient highly susceptible to contracting another illness by being in a semi-private room or patient is contagious; and
- all other medically necessary services and supplies furnished by the hospital, but not for private-duty nursing care.

See schedule of benefits for pre-certification requirements and preferred provider arrangements that may determine the level of benefits.

Hospital audits by an independent auditing firm will be considered covered charges under the plan.

Immunizations

Covered expenses include any required or recommended immunizations for a covered child from birth through the date the child is six years of age.

Mastectomy Reconstruction

Covered expenses include the following in connection with a covered mastectomy:

- reconstruction of the breast on which the mastectomy has been performed;
- surgery and reconstruction of the other breast to produce a symmetrical appearance; and
- prostheses and physical complications of all stages of mastectomy, including lymphedemas.

Medical Case Management

If medical case management is approved by the plan sponsor, such charges by the utilization review organization will be considered covered expenses under the plan.

Mental Health Care

Treatment for mental and nervous care, disorders, or conditions, as accepted by the general psychiatric community, including treatment for substance abuse. See Schedule of Benefits for possible limitations.

Midwife

Services of a registered nurse midwife.

Multiple Surgical Procedures

Multiple surgical procedure allowances are specified below:

- Primary procedure, bilateral primary procedure, or add-on to primary procedure: maximum eligible charge or negotiated fee;
- Secondary procedure in same operative area: limited to 50% of maximum eligible charge or negotiated fee;
- Bilateral secondary procedure in same operative area: limited to 50% of maximum eligible charge or negotiated fee;
- Add-on to secondary procedure in same operative area: limited to 50% of maximum eligible charge or negotiated fee;
- Separate (incidental) procedure in same operative area as any of the above: not covered;
- Separate operative area: maximum eligible charge or negotiated fee.

Newborn Care

Hospital and physician services rendered during the birth confinement to a covered newborn child (including such charges of a well newborn).

Nursing Services

The charges made by a registered graduate nurse (R.N.), licensed practical nurse (L.P.N.), or licensed vocational nurse (L.V.N.) for private-duty nursing services when medically necessary and prescribed in writing by the attending physician or surgeon specifically as to duration and type and when performed in the covered person's home. See schedule of benefits for possible limitations.

Observation Room Services:

For an observation stay (a period not to exceed 48 hours) to be considered medically necessary, the following conditions must be met:

- The patient is clinically unstable for discharge; **AND**
- Clinical monitoring, and/or laboratory, radiologic, or other testing is necessary in order to assess the patient's need for hospitalization; **OR**
- The treatment plan is not established or based upon the patient's conditions, is anticipated to be completed within a period not to exceed 48 hours; **OR**
- Change in status or condition are anticipated and immediate medical intervention may be required.

Observation room services are not covered when the above criteria are not met. Observation services that extend beyond a 48-hour period are not covered. Providers must contact Boon Chapman and obtain approval for inpatient status for services beyond the initial 48-hour period.

The following is a list of services that are not considered appropriate for observation room services (this list is not all inclusive):

- Services are not reasonable or necessary for the diagnosis and treatment of the patient
- Outpatient blood or chemotherapy administration
- Lack of/delay in patient transportation
- When used as a substitute for inpatient admission or services would normally require inpatient stay
- When it is provided only as a convenience for the physician, patient or patient's family
- While waiting for transfer to another facility
- When inpatient is discharged to observation status

Occupational Therapy

The charges for the professional services of a licensed occupational therapist, when specifically prescribed by and under the direct supervision of a physician or surgeon as to type and duration.

Out-Patient Surgery

Eligible expenses incurred in connection with any surgical procedure that is performed on an out-patient basis in a hospital, ambulatory surgical center, or physician's office. Charges must be incurred on the same day as the surgery, except that tests required by the hospital because of the surgery will be covered if they are incurred within seven days prior to the surgery.

Oxygen

Oxygen and services and supplies for the administration of oxygen.

Physical Therapy

The charges for the professional services of a licensed physical therapist, when specifically prescribed by and under the direct supervision of a physician or surgeon as to type and duration, but only to the extent that the therapy is for improvement of bodily function.

Physician Services

The charges made by a physician for medical and surgical treatment.

Pre-Admission Testing

The charges for diagnostic tests performed on an out-patient basis prior to a scheduled hospital admission when the tests are performed within seven days before admission to the hospital and the patient is subsequently admitted to the hospital.

Preferred Provider Organization

If a preferred provider organization (PPO) or specialty care referral program is shown in the schedule of benefits, maximum eligible charges for those programs will be considered covered expenses under the plan.

Pregnancy

Pregnancy expenses of a covered employee or covered dependent spouse or child are covered to the same extent as any sickness.

Group health plans and health insurance issuers offering group health insurance coverage generally may not, under Federal law, restrict benefits for any hospital length of stay in connection with childbirth for the mother or newborn child to less than 48 hours following a normal vaginal delivery, or less than 96 hours following a cesarean section, or require that a provider obtain authorization from the plan or insurance issuer from prescribing a length of stay not in excess of the above periods.

Preventive Health Services

Subject to the limitations below, Covered Expenses Incurred for periodic preventive health services recommended for a Covered Person's age and gender as indicated and required under 29 CFR § 2590.715-2713(a)(1) will be reimbursed at 100% (no cost-sharing, such as a Deductible, Co-insurance or Co-payment will apply). If an item or service required to be covered as a preventive health service under 29 CFR § 2590.715-2713(a)(1) is billed separately from an office visit, then a Co-payment, Co-insurance or Deductible may be applied to that office visit. If the item or service required to be covered under 29 CFR § 2590.715-2713(a)(1) is not billed separately from the office visit and the primary purpose of the office visit is to obtain the preventive care, then no Co-payment, Co-insurance or Deductible may apply to such office visit and preventive care service. If the item or service required to be covered under 29 CFR § 2590.715-2713(a)(1) is not billed separately and the primary purpose of the office visit is not to obtain the preventive service, then a Co-payment, Co-insurance or Deductible may be applied to the office visit.

Prosthetic Appliances

Covered expenses are limited to those for:

- an initial temporary and permanent prosthesis required to replace natural body parts lost or removed while a person is covered by the Plan;
- an initial prosthesis required to aid the function of body organs; and
- a replacement prosthesis necessitated by the growth of a child.

Psychiatric, Psychological, or Neuropsychological Testing or Evaluation

Psychiatric, psychological or neuropsychological testing or evaluation specifically related to the treatment of a psychiatric condition, or as may be otherwise specifically provided herein.

Radiation Therapy

Radium and radioactive isotope therapy.

Respiratory Therapy

The charges for the professional services of a licensed respiratory therapist, when specifically prescribed by a physician or surgeon as to type and duration, but only to the extent that the therapy is for improvement of bodily function.

Second Surgical Opinion

The maximum eligible charges of a physician for a second (or third) surgical opinion consultation and related diagnostic work, when recommended by the utilization review organization.

Skilled Nursing Facility

Covered expenses are limited to skilled nursing facility room and board and services when the confinement is approved and reviewed every thirty (30) days by the utilization review organization.

Sleep Disorders Treatment

Covered expenses are limited to treatment of apnea and narcolepsy.

Speech Therapy

Services by a qualified speech therapist when specifically prescribed by and under the direct supervision of a physician, to restore or rehabilitate any speech loss or impairment caused by injury, sickness, or congenital or developmental abnormalities as shown by age appropriate testing. In the case of a congenital defect that can be corrected or improved with surgery, expenses will be considered for speech therapy only if incurred after surgery for the defect. In case of developmental abnormalities, speech therapy services will be considered only after review of medical necessity. Speech therapy is not covered for mental, emotional, or nervous disorders.

Sterilization Procedures

Sterilization procedures for employees and spouses ONLY.

Telemedicine or Telehealth

Covered expenses include the use of interactive audio, video, or other electronic media for diagnosis, consultation, treatment, transfer of medical data, and medical education.

Temporomandibular Joint Dysfunction (TMJ)

Any services or supplies for the treatment of the temporomandibular joint or jaw-related neuromuscular conditions with oral appliances, oral splints, oral orthotics, devices, prosthetics, dental restorations, orthodontics, physical therapy, or alteration of the occlusal relationships of the teeth or jaws to eliminate pain or dysfunction of the temporomandibular joint and all adjacent or related muscles and nerves.

Transplants

Services and supplies in connection with transplant procedures, subject to the following conditions:

- Case management is required by the utilization review organization for all services.

- A second opinion must be obtained prior to undergoing any transplant procedure. This mandatory second opinion must concur with the attending physician's findings regarding the medical necessity of such procedure. The physician rendering this second opinion must be qualified to render such a service either through experience, specialty training or education, or similar criteria, and must not be affiliated in any way with the physician who will be performing the actual surgery.
- If the donor is covered under this plan, eligible medical expenses incurred by the donor will be considered for benefits.
- If the recipient is covered under this plan, eligible medical expenses incurred by the recipient will be considered for benefits. Expenses incurred by a donor who is not ordinarily covered under this plan per participant eligibility requirements will be considered eligible expenses to the extent that such expenses are not payable by the donor's plan. In no event will benefits be payable in excess of the maximum plan benefit still available to the recipient.
- If both the donor and the recipient are covered under this plan, eligible medical expenses incurred by each person will be treated separately for each person.
- The maximum eligible charges of securing an organ from a cadaver or tissue bank, including the surgeon's charge for removal of the organ and a hospital's charge for storage or transportation of the organ, will be considered a covered expense.

Urgent Care Facilities

A freestanding facility that is engaged primarily in providing minor emergency and episodic medical care and that has a board-certified physician, a registered graduate nurse (R.N.), and a registered x-ray technician in attendance at all times, and x-ray and laboratory equipment and a life support system. An urgent care facility does not include a clinic located at, operated in conjunction with, or in any way made a part of a regular hospital.

Vision Care

Covered expenses are limited to the initial purchase of glasses or contact lenses following cataract surgery covered by the plan.

Wellness Benefit

Preventive or routine medical services not necessary for the treatment of illness or injury. This benefit includes, but is not limited to routine physicals, well-baby exams, mammograms, or immunizations. See also, Preventive Health Services.

Medical Limitations and Exclusions

Except as specifically stated otherwise, no benefits shall be payable for expenses incurred for:

Abortion

Elective abortion unless the mother's life would be endangered if the pregnancy were allowed to continue to term. Complications arising out of an abortion, however, are covered as any other sickness.

Air Purification Units

Air conditioners, air-purification units, humidifiers, or electric heating units.

Bariatric Surgery

Except as specifically outlined under "Covered Expenses", the following are *always* excluded from this benefit:

- Gastric Balloon, Intestinal Bypass alone, and Stapling procedures are specifically excluded from the Bariatric Surgery benefit.
- Bariatric Surgery performed by non-participating or out-of-network providers, even if you are in an out-of-area plan.
- Bariatric Surgery will not be covered if you have one or more of the following conditions:
 - Active substance abuse
 - Defined non-compliance with previous medical care

Biofeedback

Blood

Whole blood or plasma when donated or otherwise replaced by or on behalf of the patient.

Breast Implants

Breast implants placed for cosmetic reasons, removal, reconstruction or re-implantation due to complications are not covered. There will be coverage if there is documentation of leakage of a silicone implant and/or a positive silicone antibody study for removal of implants only.

Cosmetic Surgery

Any surgery, service, drug, or supply designed to improve the appearance of an individual by alteration of a physical characteristic that is within the broad range of normal but that may be considered unpleasing or unsightly, except when:

- necessitated by a non-occupational accidental injury;
- necessary for correction of post-surgical deformity; or
- necessary to correct a congenital abnormality in a child.

Counseling, Evaluation or Therapy

- Psychiatric, psychological or neuropsychological testing or evaluation *not* specifically related to the treatment of a psychiatric condition except as may be specifically provided herein;
- Vocational testing, evaluation, counseling, or therapy;
- Hypnotherapy;
- Marriage or family counseling;
- Behavioral problems unrelated to the treatment of a psychiatric condition except as may be specifically provided herein;
- Mental retardation; or
- Counseling for sexual dysfunctions or inadequacies.

Custodial Care

Care or confinement primarily for meeting personal needs that could be rendered at home or by persons without professional skills or training.

Dental Care Under the Medical Plan

Care or treatment of or to the teeth, alveolar processes, or gingival tissue or for malocclusion will not be covered medical expenses except for:

- treatment of fracture of facial bones;
- excision of lesions of the mandibular joints, mouth, lips, or tongue;
- incision of accessory sinuses or mouth salivary glands or ducts;
- treatment of dislocation of the jaw;
- plastic reconstruction or repair of the mouth or lips necessary to correct or repair traumatic injury or congenital defect arising after the effective date of coverage; or
- treatment required because of accidental bodily injury to natural teeth. Such expenses must be incurred within six months of the date of the accident.

Replacement of teeth that were broken due to a chewing injury is not covered.

Diagnostic Hospital Admissions

Hospital confinement for diagnostic purposes only, when such diagnostic services could be performed in an out-patient setting.

Educational, Recreational, or Vocational Testing, Training, or Therapy**Exercise Equipment**

Exercising equipment, vibratory equipment, or swimming or therapy pools.

Foot Care (routine)

- Expenses incurred for the non-surgical treatment of the feet, treatment of corns, calluses, or toenails, or other routine foot care unless the charges are for the removal of nail roots or for the treatment of a metabolic or peripheral-vascular disease.
- Expenses incurred for orthopedic shoes (except when permanently attached to braces) and other supportive appliances for the feet.

Hair Transplants**Hearing Aids or Related Examinations****Impregnation**

Artificial insemination, in-vitro fertilization, or any other type of artificial impregnation procedure.

Infertility

Charges related to or in connection with fertility studies, sterility studies, or procedures to restore or enhance fertility.

Learning Disorders

Except as may be specifically provided herein, the plan does not cover:

- Psychiatric, psychological, or neuropsychological testing or evaluation of learning disorders; or
- Treatment of learning disorders (including behavioral problems). Treatment of learning disorders includes, but is not limited to, any physical, speech, and/or occupational therapy that may be prescribed for treatment.

Massage Therapy**Nicotine Addiction****Not Medically Necessary**

Any services or supplies that are not medically necessary, except as expressly included herein.

Obesity

See "Weight Control."

Personal Comfort or Convenience Items

Services or supplies provided for personal comfort and not necessary for treatment of covered sickness, accidental injury, or pregnancy including, but not limited to, the purchase or rental of telephones, televisions, orthopedic mattresses, allergy-free pillows, blankets, mattress covers, wigs, non-prescription drugs and medicines, non-hospital adjustable beds, waterbeds, motorized transportation equipment, elevators, escalators, professional medical equipment (such as blood pressure kits), or supplies or attachments for such equipment.

Pregnancy

Charges related to a surrogate mother are not covered.

Prescription Drugs - Outpatient

Outpatient prescription drug coverage is provided only under the terms of the section titled "Script Care Prescription Drug Card Program."

Self-Procured Services

Charges for services rendered to a covered person who is not under the regular care of a physician or charges for services, supplies, or treatment, including any period of hospital confinement, not recommended, approved, and certified as medically necessary and reasonable by a physician.

Sex-Change Procedures

Sex-change counseling or treatment, services incident to sex-change surgery, or any resulting complications.

Sterilization Reversal Surgery

Expenses incurred for the reconstruction (reversal) of a previous sterilization procedure.

Vision Care

Eye examinations for prescribing corrective lenses, eye glasses, or contact lenses or the fitting thereof.

The plan does not cover vision procedures whose purpose is the correction of refractive error, such as radial keratotomy.

Weight Control

Services or supplies for obesity, weight reduction, or dietary control, except for those services covered under Bariatric Surgery benefits.

Wigs and Wig Maintenance

See also "General Health Care Coverage Exclusions."

GENERAL HEALTH CARE COVERAGE EXCLUSIONS

The following exclusions apply to all health benefits, and no benefits shall be payable under these health care coverages for:

Court-Ordered Confinement

Any confinement of a covered person in a public or private institution as the result of a court order.

Criminal Activities

Any injury or any complication thereof resulting from or occurring during the covered person's commission of a felony offense or in the immediate flight therefrom.

Excess Charges

Charges in excess of maximum eligible charges for services or supplies provided.

Forms Completion

Charges for the completion of claim forms or for providing supplemental information.

Government-Operated Facilities

The plan does not cover loss caused by or resulting from confinement or treatment for which the covered person is not legally obligated to pay, such as in any government hospital. However, the U.S. government has a right to recover or collect benefits for any care or services incurred by a covered person as a result of a non-service-connected injury or illness. The U.S. government may recover or collect to the extent that the covered person would be eligible to receive benefits under this plan if such care or services had not been furnished by a department or agency of the United States.

Incorrect and/or inappropriate coding and/or billing practices

Any portion of a claim that the administrator determines to be incorrectly or inappropriately billed by a physician, health professional, facility or hospital. This includes, but is not limited to: unbundling of procedural services, office visits that take place within a global period or take place on the same day, duplicate services, and inappropriate modifier use. The determination that a service was incorrectly or inappropriately billed is based on documentation from the Centers for Medicare and Medicaid Services, The National Correct coding Initiative and/or other coding vendors or industry regulatory agencies.

Late-Filed Claims

Claims that are not filed with the contract administrator for handling within 12 months after the date the expenses are incurred.

Military Service

Charges for treatment of any injury sustained or illness contracted while in the military service of any country.

Missed Appointments

Expenses incurred for failure to keep a scheduled appointment.

No Charge/No Legal Requirement to Pay

Services for which no charge is made or for which a covered person is not required to pay, is not billed, or would not have been billed in the absence of coverage under this plan.

Other Coverage

Health care services or supplies for which a covered person is entitled (or could have been entitled if proper application had been made) to be reimbursed by or services or supplies furnished by any plan, authority, or law of

any government or governmental agency (federal, state, dominion, or province or any political subdivision thereof).

Outside United States

Charges incurred outside of the United States if the covered person traveled to such location for the sole purpose of obtaining such health care services, drugs, or supplies.

Prior Coverage

Services or supplies for which the covered person is eligible for benefits under the plan that this plan replaces.

Relative or Resident Care

Any service rendered to a covered person by a relative or anyone who customarily lives in the covered person's household.

Self-Inflicted Injury

Any expenses resulting from voluntary or involuntary self-inflicted Injury or voluntary or involuntary attempted self-destruction that occurred while the Covered Person was sane or insane, regardless of whether the Covered Person was aware of or in control of his actions. However, with respect to any Injury which is otherwise covered by the Plan, the Plan will not deny benefits otherwise provided for treatment of the Injury if the Injury results from an act of domestic violence or a medical condition (including both physical and mental health conditions).

Travel Expenses for Medical Treatment

Unless approved by the utilization review organization.

Veteran's Hospital

See "Government-Operated Facilities."

War

Health conditions resulting from insurrection, war (declared or undeclared), or any act of war and any complications therefrom, or service in the armed forces of any country.

Work-Related Injury or Sickness

Any injury or sickness that is caused by, or connected in any way to, employment of the covered person. (This includes self-employment or employment by others. It applies whether or not workers' compensation or similar law covers the expenses incurred.)

COORDINATION OF BENEFITS

All benefits provided under the health care coverages of this plan are subject to the following provisions and limitations, unless specifically stated otherwise.

Definitions

As used in this provision, the following terms shall have the meanings indicated:

Other Plan

Other plans include benefits, services, or treatment provided by:

- Group, blanket, or franchise insurance coverage;
- Group hospital or medical service pre-payment plans (HMOs, PPOs, EPOs);
- Group Blue Cross and Blue Shield coverage;
- Group automobile insurance;
- Individual auto insurance based upon the principles of no-fault coverage;
- Any coverage under labor-management trustee plans, union welfare plans, employer or professional organization plans, or employee benefit organization plans;
- Any coverage under government programs including Medicare (Titles XVIII and XIX of the Social Security Act as enacted or thereafter amended), CHAMPUS, or any coverage required or provided by a statute. For purposes of implementing this provision, eligibility alone will constitute coverage; or
- Any group coverage sponsored by or provided through a school or other educational institution.

This Plan

The health care coverages of this plan.

Allowable Expense

Any maximum eligible charges incurred while the person for whom claim is made is covered under this plan, at least a part of which is covered under any other plan. When a plan provides benefits in the form of service rather than cash payments, the reasonable cash value of each service rendered shall be deemed to be both an allowable expense and a benefit paid.

Claim Determination Period

A period that commences each January 1 and ends at 12 o'clock midnight on the next December 31, or that portion of such period during which the claimant has been covered under this plan.

Effect on Benefits Under This Plan

When Other Plan Does Not Contain a Coordination of Benefits Provision

As to any claim determination period to which this provision is applicable, the benefits that would be payable under this plan in the absence of this provision shall be reduced to the extent necessary so that the sum of all the benefits payable for such allowable expenses under this plan and all other plans shall not exceed the total of such allowable expenses. Benefits payable under the other plans include benefits that would have been payable had claim been duly made for them.

When Other Plan Contains a Coordination of Benefits Provision

If the other plan insuring the person covered by this plan contains a similar non-duplication of benefits provision that coordinates its benefits with those of this plan and would, according to its rules and the order of benefit rules below, determine its benefits after the benefits of this plan have been determined, then the benefits of such other plan will not be considered for the purpose of determining the benefits due under this plan.

If, per the other plan's rules and the order of benefit rules below, this plan is to determine its benefits after the other plan's benefits are determined, then the sum of all the benefits payable for allowable expenses under this plan and all other plans shall not exceed the total of such allowable expenses incurred during the claim determination period.

If the primary plan (i.e., plan that is to pay its benefits first) has a limitation for non-compliance with a utilization review-type of program, this plan will base its coordination only on the amounts that would have been paid if the participant had met the provisions of the primary plan.

If the primary plan has a PPO arrangement or a health maintenance organization (HMO) and the participant is penalized for failure to use these providers, this plan will base its coordination on the amounts that would have been paid if PPO or HMO providers had been used.

When This Plan's PPO negotiates a specific COB provision with a particular participating provider

The Plan's normal COB provision will be superseded by the PPO's COB provision.

Order of Benefit Determination

The rules establishing the order of benefit determination are:

- the benefits of a plan that covers the patient as an active employee shall be determined before the benefits of a plan that covers such patient as a retired employee or as a dependent;
- the benefits of a plan for individuals with COBRA continuation coverage will be secondary to the plan covering the individual as an employee or a dependent of such employee;
- the benefits of a plan that covers a person as an employee who is neither laid-off nor retired, or as that employee's dependent, are determined before those of a plan that covers a person as a laid-off or retired employee or as that employee's dependent. If the other plan does not have this rule, and if, as a result, the plans do not agree on the order of benefit determination, the rule of the other plan will prevail;
- when claimant is a dependent child and such child's parents are not separated or divorced, the benefits of the plan of the parent whose birthday falls earlier in a year are determined before those of the plan of the parent whose birthday falls later in the year, but:
 - (i) if both parents have the same birthday, the benefits of the plan that covered the parent longer are determined before those of the plan that covered the other parent for a shorter period of time; or
 - (ii) if the other plan does not have the rule described above under (i), and if, as a result, the plans do not agree on the order of benefits, the rule of the other plan will determine the order of benefits;

When claimant is a dependent child whose father and mother are legally separated or divorced:

- the benefits of a plan that covers the patient as a dependent child of the parent with custody shall be determined first;
- the plan of the spouse of the parent with custody will be determined second; and
- the plan of the parent not having custody of the child will be determined third; or
- if a court decree assigns financial responsibility for the health care expenses of a dependent child to one of the parents, the benefits of the assigned parent's plan will be determined first.

Notwithstanding the foregoing, this plan is always secondary to no-fault auto insurance coverages.

If none of the above rules establishes an order of benefit determination, the benefits of the plan that has covered the claimant for the longer period of time are determined before those of the plan that has covered that person for the shorter period of time.

When this provision operates to reduce the total amount of benefits otherwise payable to a person covered under this plan during any claim determination period, each benefit that would be payable in the absence of this provision shall be reduced, and such reduced amount shall be charged against any applicable benefit limit of the plan.

Right to Receive and Release Necessary Information

For the purpose of enforcing or determining the applicability of the terms of this provision of this plan or any similar provision of any other plan, the contract administrator may, without the consent of any person, release to or obtain from any insurance company, organization, or person any information with respect to any person it deems to be necessary for such purposes. Any person claiming benefits under this plan shall furnish to the contract administrator such information as may be necessary to enforce this provision.

Special Provisions with Respect to Medicare

In accordance with the Tax Equity Fiscal Responsibility Act of 1983 (TEFRA), an active employee or spouse over age 65 who is eligible for Medicare may elect or reject coverage under this plan. If such person elects coverage under this plan, the benefits of this plan shall generally be determined before any benefits provided by Medicare. However, whenever this plan may lawfully assume a secondary position it will do so and benefits will be determined in accordance with the coordination of benefits provision above.

When this plan may lawfully assume a secondary position and an employee or dependent becomes eligible for the program of benefits provided under Medicare, he/she is deemed to be covered by both Medicare parts A and B for all purposes under this plan. An employee or dependent is considered to be covered by Medicare on the earliest date any coverage of him under Medicare could have been effective had he/she applied for Medicare in a timely manner.

All health expenses covered under this Plan will be reduced by any Medicare benefits available for those expenses. This will be done before the health benefits of this Plan are calculated. Any rules for coordinating other plan benefits with those under this Plan will be applied after this Plan's benefits have been determined under the above rules. Allowable Expenses will be reduced by any Medicare benefits available for those expenses.

SUBROGATION AND REIMBURSEMENTS

Benefits Subject to This Provision

This provision shall apply to all benefits provided under any section of this Plan.

When This Provision Applies

A Covered Person may incur medical or other charges related to Injuries or Sickness caused by the act or omission of another person; or Another Party may be liable or legally responsible for payment of charges incurred in connection with the Injuries or Sickness. If so, the Covered Person may have a claim against that other person or Another Party for payment of the medical or other charges. In that event, the Plan will be secondary, not primary, and the Plan will be Subrogated to all rights the Covered Person may have against that other person or Another Party and will be entitled to Reimbursement. In addition, the Plan shall have the first lien against any Recovery to the extent of benefits paid or to be paid and expenses incurred by the Plan in enforcing this provision. The Plan's first lien supersedes any right that the Covered Person may have to be "made whole." In other words, the Plan is entitled to the right of first Reimbursement out of any Recovery the Covered Person procures or may be entitled to procure regardless of whether the Covered Person has received compensation for any of his damages or expenses, including any of his attorneys' fees or costs. Additionally, the Plan's right of first Reimbursement will not be reduced for any reason, including attorneys' fees, costs, comparative negligence, limits of collectability or responsibility, or otherwise. As a condition to receiving benefits under the Plan, the Covered Person agrees that acceptance of benefits is constructive notice of this provision.

The Covered Person must:

Execute and deliver a Subrogation and Reimbursement Agreement;

Authorize the Plan to sue, compromise and settle in the Covered Person's name to the extent of the amount of medical or other benefits paid for the Injuries or Sickness under the Plan and the expenses incurred by the Plan in collecting this amount, and assign to the Plan the Covered Person's rights to Recovery when this provision applies;

Immediately Reimburse the Plan, out of any Recovery made from Another Party, 100% of the amount of medical or other benefits paid for the Injuries or Sickness under the Plan and expenses (including attorneys' fees and costs of suit, regardless of an action's outcome) incurred by the Plan in collecting this amount (without reduction for attorneys' fees, costs, comparative negligence, limits of collectability or responsibility, or otherwise);

Notify the Plan in writing of any proposed settlement and obtain the Plan's written consent before signing any release or agreeing to any settlement; and

Cooperate fully with the Plan in its exercise of its rights under this provision, do nothing that would interfere with or diminish those rights and furnish any information required by the Plan.

When a right of recovery exists, and as a condition to any payment by the Plan (including payment of future benefits for other Sicknesses or Injuries), the Covered Person will execute and deliver all required instruments and papers, including a Subrogation and Reimbursement Agreement provided by the Plan, as well as doing and providing whatever else is needed, to secure the Plan's rights of Subrogation and Reimbursement, before any medical or other benefits will be paid by the Plan for the Injuries or Sickness. If the Plan pays any medical or other benefits for the Injuries or Sickness before these papers are signed and things are done, the Plan still will be entitled to Subrogation and Reimbursement. In addition, the Covered Person will do nothing to prejudice the Plan's right to Subrogation and Reimbursement and acknowledges that the Plan precludes operation of the made-whole and common-fund doctrines.

The Plan Administrator has maximum discretion to interpret the terms of this provision and to make changes as it deems necessary. The Plan Administrator also has maximum discretion to reduce, settle or otherwise compromise the amount of the Plan's Subrogation interest or the amount to which it is entitled to Reimbursement, and to agree to payment of attorneys' fees and costs, where, in its sole discretion, it determines that circumstances warrant such reduction.

Amount Subject to Subrogation or Reimbursement

Any amounts recovered will be subject to Subrogation or Reimbursement. In no case will the amount subject to Subrogation or Reimbursement exceed the amount of medical or other benefits paid for the Injuries or Sickness under the Plan and the expenses incurred by the Plan in collecting this amount. The Plan has a right to recover in full, without reduction for attorneys' fees, costs, comparative negligence, limits of collectability or responsibility, or otherwise, even if the Covered Person does not receive full compensation for all his charges and expenses.

Another Party

Another Party shall mean any individual or organization, other than the Plan, who is liable or legally responsible to pay expenses, compensation or damages in connection with a Covered Person's Injuries or Sickness.

Another Party shall include the party or parties who caused the Injuries or Sickness; the insurer, guarantor or other indemnifier of the party or parties who caused the Injuries or Sickness; a Covered Person's own insurer, such as uninsured, underinsured, medical payments, no-fault, homeowner's, renter's or any other liability insurer; a workers' compensation insurer; and any other individual or organization that is liable or legally responsible for payment in connection with the Injuries or Sickness.

Recovery

Recovery shall mean any and all monies paid to the Covered Person by way of judgment, settlement or otherwise (no matter how those monies may be characterized, designated or allocated) to compensate for any losses caused by, or in connection with, the Injuries or Sickness. Any Recovery shall be deemed to apply, first, for Reimbursement.

Subrogation

Subrogation shall mean the Plan's right to pursue the Covered Person's claims for medical or other charges paid by the Plan against Another Party.

Reimbursement

Reimbursement shall mean repayment to the Plan for medical or other benefits that it has paid toward care and treatment of the Injury or Sickness and for the expenses incurred by the Plan in collecting this benefit amount.

When a Covered Person Retains an Attorney

If the Covered Person retains an attorney, that attorney must sign the Subrogation and Reimbursement Agreement as a condition to any payment of benefits and as a condition to any payment of future benefits for other Sicknesses or Injuries. Additionally, the Covered Person's attorney must recognize and consent to the fact that the Plan precludes the operation of the "made-whole" and "common fund" doctrines, and the attorney must agree not to assert either doctrine in his pursuit of Recovery. The Plan will neither pay the Covered Person's attorneys' fees and costs associated with the recovery of funds, nor reduce its reimbursement pro rata for the payment of the Covered Person's attorneys' fees and costs. Attorneys' fees will be payable from the Recovery only after the Plan has received full Reimbursement.

A Covered Person or his attorney who receives any Recovery (whether by judgment, settlement, compromise, or otherwise) has an absolute obligation to immediately tender the Recovery to the Plan under the terms of this provision. A Covered Person or his attorney who receives any such Recovery and does not immediately tender the Recovery to the Plan will be deemed to hold the Recovery in constructive trust for the Plan, because the

Covered Person or his attorney is not the rightful owner of the Recovery and should not be in possession of the Recovery until the Plan has been fully reimbursed.

When the Covered Person is a Minor or is Deceased

These provisions apply to the parents, trustee, guardian or other representative of a minor Covered Person and to the heir or personal representative of the estate of a deceased Covered Person, regardless of applicable law and whether or not the minor's representative has access or control of the Recovery.

When a Covered Person Does Not Comply

When a Covered Person does not comply with the provisions of this section, the Plan Administrator shall have the authority, in its sole discretion, to deny payment of any claims for benefits by the Covered Person and to deny or reduce future benefits payable (including payment of future benefits for other Injuries or Sickesses) under the Plan by the amount due as Reimbursement to the Plan. The Plan Administrator may also, in its sole discretion, deny or reduce future benefits (including future benefits for other Injuries or Sickesses) under any other group benefits plan maintained by the Plan Sponsor. The reductions will equal the amount of the required Reimbursement. If the Plan must bring an action against a Covered Person to enforce this provision, then that Covered Person agrees to pay the Plan's attorneys' fees and costs, regardless of the action's outcome.

TERMINATION OF COVERAGE

Employee Coverage Termination

An employee's coverage under the health coverage of the plan shall terminate upon the earliest of the following:

- termination of the plan;
- the last day of the month in which the employee prospectively terminates participation in the plan;
- the last day of the month in which the covered employee leaves or is dismissed from the employment of the employer;
- the last day of the month in which the employee ceases to be eligible;
- the date of expiration of the period for which employee last made the required contribution, if the coverage is provided on a contributory basis (the employee shares in the cost); or
- the date prior to the date of the employee's entry into the armed forces of any country.

If an eligible clergy elects not to enroll or to disenroll from the plan, the church is still responsible for the church's contribution based on the clergy's eligible appointment.

Dependent Coverage Termination

A dependent's coverage under the health care coverages of the plan shall terminate upon any of the following:

- termination of the plan;
- the last day of the month in which the coverage of the employee terminates;
- the last day of the month in which the Plan receives actual notice that the covered person no longer satisfies the plan's definition of a dependent;
- the date of expiration of the period for which the employee last made the required contribution for such coverage, if dependent's coverage is provided on a contributory basis (the employee shares in the cost);
or
- the date prior to the date of the dependent's entry into the armed forces of any country.

Employee participants can voluntarily terminate an eligible dependent's coverage at any time by submitting an enrollment or change form to the plan. Termination will take effect on the first of the month following receipt of the enrollment or change form. Clergy who participate in a Section 125 Plan should consult their Section 125 Plan Administrator regarding any potential tax consequences of terminating dependent coverage prior to the end of the plan year.

Certificates of Coverage

The plan will provide a certificate of coverage upon request to any employee or dependent after the individual loses coverage in the plan if requested within 24 months after the loss of coverage. In that case, the certificate will be provided at the earliest time that the plan, acting in a reasonable and prompt fashion, can furnish it.

The plan will make reasonable efforts to collect information applicable to any dependents of the employee and to include that information on the certificate.

CONTINUATION OF COVERAGE OPTION

You may continue Health Expense Coverage on the Texas Annual Conference of The United Methodist Church Employee Benefit Plan, which terminates for you and your dependents, for any reason, except involuntary termination of employment due to cause, but only if you have been covered under this Plan for at least 3 months in a row prior to such termination

You must request the continuation in writing within 31 days of the later to occur of:

- The date coverage would otherwise cease; and
- The date your Employer provides you with the notice of your right to continue coverage.

Premium payments must be continued. The required contribution for continued coverage may not exceed 102% of the group rate.

Continuation for a person may not terminate until the earliest of:

- 6 months after the date the election is made.
- The end of the period for which required contributions are made.
- The date the person is or could be covered by Medicare.
- The date the person is covered or is eligible for similar benefits under another medical expense plan.
- The date the person has similar benefits available pursuant to any state or federal law.

Coverage for a dependent will cease earlier when the person:

- Ceases to be a defined dependent under this Plan; or
- Becomes eligible for other coverage under the group contract.

You and your dependents can elect this continuation in lieu of or following any other continuation offered under this Plan.

EXTENSION OF COVERAGE

Extension of Coverage for Handicapped Dependent Children

If an already covered dependent child attains the age that would otherwise terminate his status as a dependent, and:

- if on the day immediately prior to the attainment of such age the child was a covered dependent under the plan;
- at the time of attainment of such age the child is incapable of self-sustaining employment by reason of mental retardation, physical handicap, or disability that commenced prior to the attainment of such age; and
- such child is primarily dependent upon the employee for support and maintenance,

then such child's status as a dependent shall not terminate solely by reason of his having attained the specified age, and he/she shall continue to be considered a covered dependent under the plan so long as he/she remains in such condition and otherwise conforms to the definition of a dependent.

The employee must submit to the contract administrator proof of the child's incapacity within thirty-one days of the child's attainment of such age and thereafter as may be required, but not more frequently than once a year after the two-year period following the child's attainment of such age.

Extension of Coverage During Absence From Work (Available during the continuance of the plan ONLY)

If an employee fails to continue in active employment due to sickness, injury, maternity leave, temporary layoff, or approved leave of absence, the employee may be permitted to continue health care coverages for himself and his dependents, though employee could be required to pay the full cost of coverage during such absence.

Any such extended coverage offered by the employer and elected by the employee shall automatically and immediately cease on the earliest of the following dates:

- the date the person becomes covered under any other group plan for benefits of a type similar to that provided by this plan;
- the date of expiration of the period for which the last contribution was paid, if such contribution is required; or
- the date of termination of this plan.

This plan is intended to conform with the applicable provisions of the Family Medical Leave Act of 1993.

Extension of Coverage during Periods of Employer-Certified Disability, Leave of Absence or Layoff

A person may remain eligible for a limited time if active, full-time work ceases due to disability, leave of absence, or layoff.

While continued, coverage will be that which was in force on the last day worked as an *active employee*. However, if benefits reduce for others in the class, they will also reduce for the continued person.

Subject to the provisions of this Section, the terms and conditions for such continued coverage (*e.g.*, duration of coverage, required contributions, etc.) will be administered in accordance with Group Health Benefits Policy 136, which may be amended from time to time.

Extension of Coverage under Provisions of the Affordable Care Act (ACA)

A clergy employed less than thirty (30) hours per week and under less than a 75% appointment will still be considered a “full-time clergy” for Plan eligibility purposes under the following circumstances:

1. The clergy’s salary-paying unit is an applicable large employer (“ALE”) under Section 4980H of the Internal Revenue Code;
2. The ALE uses the “look-back measurement method” (under which employers may determine the status of an employee as a full-time employee during a future “stability” period as described in Section 4980H of the Internal Revenue Code and regulations adopted pursuant thereto);
3. The clergy is currently in the “stability period” following full-time employment during the appropriate “measurement period”; and
4. The ALE notifies the Plan (TAC Benefits Office) in writing of the stability period during which the clergy should be characterized as employed full-time.

A lay employee of the TAC Fiscal Office employed less than thirty (30) hours per week will still be considered a “full-time lay employee” for Plan eligibility purposes under the following circumstances:

1. The TAC Fiscal Office uses the “look-back measurement method” (under which employers may determine the status of an employee as a full-time employee during a future “stability” period as described in Section 4980H of the Internal Revenue Code and regulations adopted pursuant thereto);
2. The lay employee is currently in the “stability period” following full-time employment during the appropriate “measurement period”; and
3. The TAC Fiscal Office notifies the Plan (TAC Benefits Office) in writing of the stability period during which the lay employee should be characterized as employed full-time.

Extension of Coverage under Provisions of the Family and Medical Leave Act of 1993 (FMLA)

Administered by the Salary-Paying Unit

A. Coverage

If you are covered under the Plan and are eligible for an unpaid family or medical leave of absence as provided under the Family and Medical Leave Act of 1993 (FMLA), your coverage may continue during such leave for up to twelve (12) weeks. The FMLA requires any employer (salary-paying unit) with fifty (50) or more employees within 75 miles, as defined by the Act, to maintain health coverage for an employee during a period of eligible leave at the same level and under the same conditions coverage would have been provided if the employee had remained a member of the eligible group and covered under the Plan. You are considered eligible for FMLA leave if you have been employed by the *employer* for at least twelve (12) months, and have performed at least 1,250 hours of service with the *employer* in the twelve (12) months immediately preceding the start of the leave.

The FMLA entitles eligible employees of covered employers to take unpaid, job-protected leave for specified family and medical reasons with continuation of group health insurance coverage under the same terms and conditions as if the employee had not taken leave.

B. Reasons for FMLA Leave

Eligible employees are entitled to:

Up to twelve (12) workweeks of unpaid FMLA leave in a 12-month period for any of the following reasons:

1. The birth of a child and to care for the newborn child within one year of birth;

2. The placement with the employee of a child for adoption or foster care and to care for the newly placed child within one year of placement;
3. To care for the employee's spouse, child, or parent who has a serious health condition;
4. A serious health condition that makes the employee unable to perform the essential functions of his or her job;
5. Any "qualifying exigency" arising out of the foreign deployment of the employee's spouse, son, daughter, or parent who is a member of the Armed Forces (including the National Guard and Reserves) and who is on covered active duty or has been notified of an impending call or order to covered active duty.

Up to twenty-six (26) workweeks of unpaid FMLA Military Caregiver Leave during a single 12-month period to care for a covered servicemember with a serious injury or illness if the eligible employee is the servicemember's spouse, son, daughter, parent or next of kin and qualifies for FMLA Military Caregiver Leave based on the criteria set forth under FMLA provisions.

Up to twenty-six (26) workweeks of unpaid FMLA Military Caregiver Leave during a single 12-month period to care for a covered veteran with a serious injury or illness if the eligible employee is the covered veteran's spouse, son, daughter, parent or next of kin and qualifies for FMLA Military Caregiver Leave based on the criteria set forth under FMLA provisions.

Disabled clergy (clergy appointed to Medical Leave) may continue coverage as defined in the "Eligibility and Effective Dates" section of this document.

CLAIMS PROCEDURES FOR HEALTH CARE COVERAGE

The procedures outlined below must be followed by Claimants to obtain payment of health benefits under this Plan.

Health Claims

All claims and questions regarding health claims should be directed to the Contract Administrator. The Plan Administrator shall be ultimately and finally responsible for adjudicating such claims and for providing full and fair review of the decision on such claims. Benefits under the Plan will be paid only if the Plan Administrator decides in its discretion that the Claimant is entitled to them. The responsibility to process claims in accordance with the Plan Document may be delegated to the Contract Administrator; provided, however, that the Contract Administrator is not a fiduciary of the Plan and does not have the authority to make decisions involving the use of discretion.

The Plan will ensure that all claims and appeals are adjudicated in a manner designed to ensure the independence and impartiality of the persons involved in making the decision. Accordingly, decisions regarding hiring, compensation, termination, promotion, or other similar matters with respect to any individual (such as a claims adjudicator or medical expert) will not be made based upon the likelihood that the individual will support the denial of benefits.

Each Claimant claiming benefits under the Plan shall be responsible for supplying, at such times and in such manner as the Plan Administrator in its sole discretion may require, written proof that the expenses were Incurred or that the benefit is covered under the Plan. If the Plan Administrator in its sole discretion shall determine that the Claimant has not Incurred a Covered Expense or that the benefit is not covered under the Plan, or if the Claimant shall fail to furnish such proof as is requested, no benefits shall be payable under the Plan.

Important Definitions

The following defined terms are used in this Claims Procedures section:

“Adverse Benefit Determination” means any of the following: (1) a denial, reduction, or termination of, or a failure to provide or make payment (in whole or in part) for a benefit under the Plan, including any such denial, reduction, termination, or failure to provide or make payment that is based on a determination of a Covered Person’s eligibility to participate in the Plan; (2) a denial, reduction, or termination of, or a failure to provide or make payment (in whole or in part) for, a benefit under the Plan, resulting from the application of precertification procedures or other utilization review procedures; (3) a failure to cover an item or service for which benefits under the Plan are otherwise provided because it is determined to be experimental and/or investigational or not medically necessary or because another exclusion applies under the Plan; or (4) a rescission of coverage, which is a cancellation or discontinuance of coverage that has a retroactive effect, whether or not, in connection with the rescission, there is an adverse effect on any particular benefit at that time.

“Adverse Benefit Determination on Review” means the upholding or affirmation of an appealed Adverse Benefit Determination.

“Benefit Determination” means a determination by the Plan Administrator on a claim for benefits under the Plan, whether or not an Adverse Benefit Determination.

“Benefit Determination on Review” means a determination by the Plan Administrator on an appeal of an Adverse Benefit Determination, whether or not an Adverse Benefit Determination on Review.

“Claimant” means a Covered Person under the Plan, or his authorized representative or health care provider, who is designated by the Covered Person to act on his behalf.

“External Review” means a review of an Adverse Benefit Determination (including a Final Internal Adverse Benefit Determination) conducted pursuant to the Federal External Review process described in this Claims Procedures section.

“Final Internal Adverse Benefit Determination” means an Adverse Benefit Determination on Review that has been upheld by the Plan at the completion of the internal appeals process (or an Adverse Benefit Determination with respect to which the internal appeals process has been exhausted under the deemed exhaustion rules).

“Independent Review Organization” or “IRO” means an entity that conducts independent External Reviews of Adverse Benefit Determinations and Final Internal Adverse Benefit Determinations.

Under the Plan, there are three types of claims: Pre-service Non-urgent, Concurrent Care and Post-service.

Pre-Service Claims

A "Pre-service Claim" is a claim for a benefit under the Plan where the Plan conditions receipt of the benefit, in whole or in part, on approval of the benefit in advance of obtaining medical care.

A "Pre-service Urgent Care Claim" is any claim for medical care or treatment with respect to which the application of the time periods for making non-urgent care determinations could seriously jeopardize the life or health of the Claimant or the Claimant's ability to regain maximum function, or, in the opinion of a Physician with knowledge of the Claimant's medical condition, would subject the Claimant to severe pain that cannot be adequately managed without the care or treatment that is the subject of the claim.

It is important to remember that, if a Claimant needs medical care for a condition, which could seriously jeopardize his life, there is no need to contact the Plan for prior approval. The Claimant should obtain such care without delay.

Further, since the Plan does not require the Claimant to obtain approval of a medical service in an urgent care situation prior to getting treatment, there is no "Pre-service Urgent Care Claim." The Claimant simply follows the Plan's procedures with respect to any notice which may be required after receipt of treatment, and files the claim as a Post-service Claim.

Concurrent Claims

A "Concurrent Claim" arises when the Plan has approved an on-going course of treatment to be provided over a period of time or number of treatments, and either (a) the Plan determines that the course of treatment should be reduced or terminated, or (b) the Claimant requests extension of the course of treatment beyond that which the Plan has approved.

It is important to remember that, in the event of an urgent care situation, the Covered Person need only notify CHR on the first business day after the additional stay begins. Since the Plan does not require the Claimant to obtain approval of a medical service in an urgent care situation prior to getting treatment, there is no need to contact the Plan Administrator to request an extension of a course of treatment. The Claimant simply follows the Plan's procedures with respect to any notice which may be required after receipt of treatment, and files the claim as a Post-service Claim.

Post-service Claims

A "Post-service Claim" is a claim for a benefit under the Plan after the services have been rendered.

When Health Claims Must Be Filed

Health claims must be filed with the Contract Administrator within 12 months from the date on which Covered Expenses were Incurred. Claims filed later than that date shall be denied. Benefits are based upon the Plan's provisions at the time the charges were Incurred.

A Pre-service Claim (including a Concurrent Claim that also is a Pre-service Claim) is considered to be filed when the request for approval of treatment or services is made and received by the Contract Administrator in accordance with the Plan's procedures. However, a Post-service Claim is considered to be filed when the following information is received by the Contract Administrator, together with a Form HCFA or Form UB92:

1. The date of service;
2. The name, address, telephone number and tax identification number of the provider of the services or supplies;
3. The place where the services were rendered;
4. The diagnosis and procedure codes;
5. The amount of charges;
6. The name of the Plan;
7. The name of the covered Employee; and
8. The name of the patient.

Upon receipt of this information, the claim will be deemed to be filed with the Plan. The Contract Administrator will determine if enough information has been submitted to enable proper consideration of the claim. If not, more information may be requested as provided herein. This additional information must be received by the Contract Administrator within 45 days from receipt by the Claimant of the request for additional information. Failure to do so may result in claims being declined or reduced.

Timing of Claim Decisions

The Plan Administrator shall notify the Claimant, in accordance with the provisions set forth below, of any Adverse Benefit Determination (and, in the case of Pre-service Claims and Concurrent Claims, of decisions that a claim is payable in full) within the timeframes described under each type of claim listed below.

Pre-service Non-urgent Care Claims

If the Claimant has provided all of the information needed to process the claim, the Claimant will be notified in a reasonable period of time appropriate to the medical circumstances, but not later than 15 days after receipt of the claim, unless an extension has been requested, then prior to the end of the 15-day extension period.

If the Claimant has not provided all of the information needed to process the claim, then the Claimant will be notified as to what specific information is needed as soon as possible, but not later than 5 days after receipt of the claim. The Claimant will be notified of a determination of benefits in a reasonable period of time appropriate to the medical circumstances, either prior to the end of the extension period (if additional information was requested during the initial processing period), or by the date agreed to by the Plan Administrator and the Claimant (if additional information was requested during the extension period).

Concurrent Claims

Plan Notice of Reduction or Termination.

If the Plan Administrator is notifying the Claimant of a reduction or termination of a course of treatment (other than by Plan amendment or termination), before the end of such period of time or number of treatments, then the Claimant will be notified sufficiently in advance of the reduction or termination to allow the Claimant to appeal and obtain a determination on review of that Adverse Benefit Determination before the benefit is reduced or terminated.

Request by Claimant Involving Non-urgent Care

If the Plan Administrator receives a request from the Claimant to extend the course of treatment beyond the period of time or number of treatments that is a claim not involving Urgent Care, the request will be treated as a new benefit claim and decided within the timeframe appropriate to the type of claim (either as a Pre-service Non-urgent Claim or a Post-service Claim).

Post-service Claims

If the Claimant has provided all of the information needed to process the claim, the Claimant will be notified in a reasonable period of time, but not later than 30 days after receipt of the claim, unless an extension has been requested, then prior to the end of the 15-day extension period.

If the Claimant has not provided all of the information needed to process the claim and additional information is requested during the initial processing period, then the Claimant will be notified of a determination of benefits prior to the end of the extension period, unless additional information is requested during the extension period, then the Claimant will be notified of the determination by a date agreed to by the Plan Administrator and the Claimant.

Extensions – Pre-service Non-Urgent Care Claims

This period may be extended by the Plan for up to 15 days, provided that the Plan Administrator both determines that such an extension is necessary due to matters beyond the control of the Plan and notifies the Claimant, prior to the expiration of the initial 15-day processing period, of the circumstances requiring the extension of time and the date by which the Plan expects to render a decision.

Extensions – Post-service Claims

This period may be extended by the Plan for up to 15 days, provided that the Plan Administrator both determines that such an extension is necessary due to matters beyond the control of the Plan and notifies the Claimant, prior to the expiration of the initial 30-day processing period, of the circumstances requiring the extension of time and the date by which the Plan expects to render a decision.

Calculating Time Periods

The period of time within which a Benefit Determination is required to be made shall begin at the time a claim is deemed to be filed in accordance with the procedures of the Plan.

Notification of an Adverse Benefit Determination

The Plan Administrator shall provide a Claimant with a notice, either in writing or electronically containing the following information:

1. The specific reason or reasons for the Adverse Benefit Determination;
2. Reference to the specific Plan provisions upon which the determination is based;
3. A description of additional material or information necessary for the Claimant to perfect the claim and an explanation of why such material or information is necessary;
4. A description of the Plan's appeal procedures and time limits applicable to such procedures following an Adverse Benefit Determination on Review;
5. If the Adverse Benefit Determination is based upon:
 - a. An internal rule, guideline, protocol, or other similar criterion, either the specific rule, guideline, protocol, or other similar criterion, or a statement that such a rule, guideline, protocol, or other similar criterion was relied upon in making the Adverse Benefit Determination and that a copy of such rule, guideline, protocol, or other criterion will be provided free of charge to the Claimant upon request; or
 - b. A medical necessity or experimental and/or investigational treatment or similar exclusion or limit, either an explanation of the scientific or clinical judgment for the determination, applying the terms

- of the Plan to the Claimant's medical circumstances, or a statement that such explanation will be provided free of charge upon request;
6. Information sufficient to identify the claim involved (including the date of service, the health care provider, the claim amount (if applicable), the diagnosis code and its corresponding meaning, and the treatment code and its corresponding meaning);
 7. The reason or reasons for the Adverse Benefit Determination, including the denial code and its corresponding meaning, as well as a description of the Plan's standard, if any, that was used in denying the claim;
 8. A description of available internal appeals and External Review processes, including information regarding how to initiate an appeal; and
 9. The availability of, and contact information for, any applicable office of health insurance consumer assistance or ombudsman established to assist individuals with the internal claims and appeals and External Review processes.

Appeal of Adverse Benefit Determinations

Full and Fair Review of All Claims

In cases where a claim for benefits is denied, in whole or in part, and the Claimant believes the claim has been denied wrongly, the Claimant may appeal the denial and review pertinent documents. The claims procedures of this Plan provide a Claimant with a reasonable opportunity for a full and fair review of a claim and Adverse Benefit Determination. A Claimant is allowed to review the claim file and to present evidence and testimony as part of the internal claims and appeals process. More specifically, the Plan provides:

1. Claimants at least 180 days following receipt of a notification of an initial Adverse Benefit Determination within which to appeal the determination;
2. Claimants the opportunity to submit written comments, documents, records, and other information relating to the claim for benefits;
3. For a review that does not afford deference to the previous Adverse Benefit Determination and that is conducted by an appropriate named fiduciary of the Plan, who shall be neither the individual who made the Adverse Benefit Determination that is the subject of the appeal, nor the subordinate of such individual;
4. For a review that takes into account all comments, documents, records, and other information submitted by the Claimant relating to the claim, without regard to whether such information was submitted or considered in the prior Benefit Determination;
5. Each Claimant will be provided, free of charge, with any new or additional evidence considered, relied upon, or generated by the Plan (or at the direction of the Plan) in connection with the claim; such evidence must be provided as soon as possible and sufficiently in advance of the date on which the notice of Final Internal Adverse Benefit Determination is required to be provided to give the Claimant a reasonable opportunity to respond prior to that date;
6. Before the Plan can issue a Final Internal Adverse Benefit Determination based on a new or additional rationale, the Claimant will be provided, free of charge, with the rationale; the rationale must be provided as soon as possible and sufficiently in advance of the date on which the notice of Final Internal Adverse Benefit Determination is required to be provided to give the Claimant a reasonable opportunity to respond prior to that date;
7. That, in deciding an appeal of any Adverse Benefit Determination that is based in whole or in part upon a medical judgment, the Plan fiduciary shall consult with a health care professional who has appropriate training and experience in the field of medicine involved in the medical judgment, who is neither an individual who was consulted in connection with the Adverse Benefit Determination that is the subject of the appeal, nor the subordinate of any such individual;
8. For the identification of medical or vocational experts whose advice was obtained on behalf of the Plan in connection with a claim, even if the Plan did not rely upon their advice; and

9. That a Claimant will be provided, upon request and free of charge, reasonable access to, and copies of, all documents, records, and other information relevant to the Claimant's claim for benefits in possession of the Plan Administrator or the Contract Administrator.

Requirements for Appeal

The Claimant must file the appeal in writing within 180 days following receipt of the notice of an Adverse Benefit Determination. To file an appeal, the Claimant's appeal must be addressed as follows and either mailed or faxed as follows: Pre-service Non-urgent Claims – Prime Dx, P.O. Box 9201, Austin, Texas 78766, Fax Number (512) 454-1624 or Post-service Claims – Boon-Chapman Benefit Administrators, Inc., Attention: Appeals, P.O. Box 9201, Austin, Texas 78766 Fax Number: 512-459-1552.

It shall be the responsibility of the Claimant to submit proof that the claim for benefits is covered and payable under the provisions of the Plan. Any appeal must include:

1. The name of the Employee/Claimant;
2. The Employee/Claimant's social security number;
3. The group name or identification number;
4. All facts and theories supporting the claim for benefits. Failure to include any theories or facts in the appeal will result in their being deemed waived. In other words, the Claimant will lose the right to raise factual arguments and theories which support this claim if the Claimant fails to include them in the appeal;
5. A statement in clear and concise terms of the reason or reasons for disagreement with the handling of the claim; and
6. Any material or information that the Claimant has which indicates that the Claimant is entitled to benefits under the Plan.

If the Claimant provides all of the required information, it may be that the expenses will be eligible for payment under the Plan.

Timing of Notification of Benefit Determination on Review

The Plan Administrator shall notify the Claimant of the Plan's Benefit Determination on Review within the following timeframes:

Pre-service Non-Urgent Care Claims

Within a reasonable period of time appropriate to the medical circumstances, but not later than 30 days after receipt of the appeal.

Concurrent Claims

The response will be made in the appropriate time period based upon the type of claim – Pre-service Non-urgent or Post-service.

Post-service Claims

Within a reasonable period of time, but not later than 60 days after receipt of the appeal.

Calculating Time Periods

The period of time within which the Plan's determination is required to be made shall begin at the time an appeal is filed in accordance with the procedures of this Plan, without regard to whether all information necessary to make the determination accompanies the filing.

Manner and Content of Notification of Adverse Benefit Determination on Review.

The Plan Administrator shall provide a Claimant with notification, in writing or electronically, of a Plan's Adverse Benefit Determination on Review, setting forth:

1. The specific reason or reasons for the denial;
2. Reference to the specific portion(s) of the Plan Document on which the denial is based;
3. A statement that the Claimant is entitled to receive, upon request and free of charge, reasonable access to, and copies of, all documents, records, and other information relevant to the Claimant's claim for benefits;
4. A statement describing any voluntary appeal procedures offered by the Plan and the Claimant's right to obtain the information about such procedures;
5. If an internal rule, guideline, protocol, or other similar criterion was relied upon in making the adverse determination, a statement that such rule, guideline, protocol, or other similar criterion was relied upon in making the adverse determination and that a copy of the rule, guideline, protocol, or other similar criterion will be provided free of charge to the Claimant upon request;
6. If the Adverse Benefit Determination is based upon a medical judgment, a statement that an explanation of the scientific or clinical judgment for the determination, applying the terms of the Plan to the Claimant's medical circumstances, will be provided free of charge upon request;
7. The following statement: "You and your Plan may have other voluntary alternative dispute resolution options, such as mediation. One way to find out what may be available is to contact your local U.S. Department of Labor Office and your state insurance regulatory agency";
8. Information sufficient to identify the claim involved (including the date of service, the health care provider, the claim amount (if applicable), the diagnosis code and its corresponding meaning, and the treatment code and its corresponding meaning);
9. The reason or reasons for the Final Internal Adverse Benefit Determination including the denial code and its corresponding meaning, as well as a description of the Plan's standard, if any, that was used in denying the claim. In the case of a notice of Final Internal Adverse Benefit Determination, this description must include a discussion of the decision;
10. A description of available internal appeals and External Review processes, including information regarding how to initiate an appeal; and
11. The availability of, and contact information for, any applicable office of health insurance consumer assistance or ombudsman established to assist individuals with the internal claims and appeals and External Review processes.

External Review

In accordance with the U.S. Department of Labor Technical Release 2010-01, the Plan will comply with the safe harbor for non-grandfathered self-funded group health plans not subject to a State External Review process, and therefore subject to the Federal External Review process, until superseded by future guidance. External Review will be available with respect to claims for medical benefits. However, a claim for dental benefits or a denial, reduction, termination, or a failure to provide payment for a benefit based on a determination that a Claimant fails to meet eligibility requirements under the Plan is not eligible for External Review.

1. Request for Standard External Review. A Claimant shall have four (4) months from the receipt of the notice of an Adverse Benefit Determination or Final Internal Adverse Benefit Determination to submit a written request an External Review to the Plan Administrator.
2. Preliminary Determination. Within five (5) business days of receipt of a request for an External Review, the Plan Administrator shall complete a preliminary review of the request to determine whether:
 - a. The Claimant is or was covered by the Plan at the time the health care item or service in question was requested or provided, or that the health care item or service was covered under the Plan at the time the health care item or service was provided;
 - b. The Final Internal Adverse Benefit Determination does not relate to whether the Claimant satisfied the eligibility requirements of the Plan;

- c. The Claimant has exhausted the Plan's internal appeal process, unless the Claimant is not required to exhaust the internal appeal process under 29 C.F.R. § 2590.715-2719; and
 - d. The Claimant has provided all the information and forms required to process an External Review.
3. Preliminary Notice. If a request is not eligible for External Review, the Plan Administrator must issue a written notice to the Claimant within one (1) business day after the Plan Administrator completes the preliminary review, which must include the reasons the requested appeal is not eligible for External Review and contact information for the Employee Benefit Security Administration. If a request is not eligible for External Review because it is incomplete, the notice must include a description of the information necessary to complete the request and permit the Claimant to submit such information by the later of 48 hours after the Claimant receives the notice or by the end of the four (4) month period during which the External Review must be requested.
4. Standard External Review. If a claim is eligible for External Review, the Plan will assign the claim to an IRO that is one of at least three IROs retained by the Plan to conduct External Reviews and which is due to receive the claim on the Plan's rotational basis established to ensure independence. The external IRO will conduct a full review of the file, applicable Plan provisions and any material submitted as required by applicable guidance and in compliance with the IRO's contract with the Plan. The IRO will conduct this review on a de novo basis without deference to the Plan's decision.

Within five business (5) days after the Plan has assigned an IRO to review the claim, the Plan shall provide the documents and information considered by the Plan in making its Final Internal Adverse Benefit Determination. If the IRO receives any new evidence or information, it shall provide such information to the Plan and the Plan may reconsider its decision. If the Plan changes its decision upon reconsideration, it must notify the Claimant and the IRO of its new decision within one (1) business day of making such decision. The IRO must then terminate its review.

The IRO shall provide the Claimant and the Plan with a written notice of its decision within 45 days of the date on which the IRO received the request for External Review. Such notice shall include all information required by applicable guidance.

Upon receipt of the IRO's final determination reversing the Plan's determination, the Plan shall immediately provide coverage or payment for the claim.

5. Expedited External Review. An expedited External Review shall be provided:
- a. If the Claimant received a Final Internal Adverse Benefit Determination and the Claimant has a medical condition where the timeframe for completion of a standard External Review would seriously jeopardize the life or health of the Claimant or would jeopardize the Claimant's ability to regain maximum function; or
 - b. If the Final Internal Adverse Benefit Determination concerns an admission, availability of care, continued stay, or health care item or service for which the Claimant received emergency services, but has not been discharged since receiving such emergency services.

Upon receipt of a request for an expedited External Review, the Plan shall determine if the request satisfies the requirements to be eligible for a standard External Review. The Plan must immediately send the Claimant a notice of such preliminary determination of eligibility.

If a claim is eligible for expedited External Review, the Plan shall assign the claim to an IRO. The IRO shall provide the Claimant and the Plan with a written notice of its decision as soon as possible, but in no event more than 72 hours after the IRO received the request for an expedited External Review. If the

notice is not in writing, within 48 hours of the date the notice is provided, the IRO must provide a written confirmation of its decision to the Claimant and the Plan.

Exhaustion of Administrative Remedies

No action at law or in equity may be brought to recover under the Plan until all administrative remedies have been exhausted. If a Claimant fails to file a timely claim, or if the Claimant fails to request a review in accordance with the Plan's claim procedures outlined herein, such Claimant will have no right of review under the Plan. The denial of the claim will become final and binding on all persons for all purposes.

If the Plan fails to strictly adhere to all the requirements of the Claims Procedures with respect to a claim, the Claimant is deemed to have exhausted the internal claims and appeals process. In such case, the Claimant may initiate an External Review and is also entitled to pursue any available remedies under State law, as applicable, on the basis that the Plan has failed to provide a reasonable internal claims and appeals process that would yield a decision on the merits of the claim

Decision on Review to be Final

If, for any reason, the Claimant does not receive a written response to the appeal within the appropriate time period set forth above, the Claimant may assume that the appeal has been denied. The decision by the Plan Administrator or other appropriate named fiduciary of the Plan on review will be final, binding and conclusive and will be afforded the maximum deference permitted by law. All claim review procedures provided for in the Plan must be exhausted before any legal action is brought. Any legal action for the recovery of any benefits must be commenced within one year after the Plan's claim review procedures have been exhausted.

Appointment of Authorized Representative

A Claimant is permitted to appoint an authorized representative to act on his behalf with respect to a benefit claim or appeal of a denial. An assignment of benefits by a Claimant to a provider will not constitute appointment of that provider as an authorized representative. To appoint such a representative, the Claimant must complete a form, which can be obtained from the Plan Administrator or the Contract Administrator. In the event a Claimant designates an authorized representative, all future communications from the Plan will be with the representative, rather than the Claimant, unless the Claimant directs the Plan Administrator, in writing, to the contrary.

Unclaimed Benefits

If, within twelve (12) months after any amount becomes payable hereunder to a Covered Person or Beneficiary, and the same will not have been claimed or any check issued under the Plan remains uncashed, provided reasonable care will have been exercised in attempting to make such payments, the amount thereof will be forfeited and will cease to be a liability of the Plan.

DEFINITIONS

When used within, the following items shall have the meanings shown below:

Accidental Dental Injury

An injury to the mouth or structures within the oral cavity that is caused by an external traumatic force. It does not include damage to the teeth that is the result of biting into food or other substances.

Accidental Injury

Any accidental bodily injury that occurs while an individual is covered under the Plan and that is caused by external forces under unexpected circumstances and that does not arise out of or in the course of the employment of the covered person. Sprains and strains resulting from over-exertion, excessive use, or over-stretching are not considered accidental injuries.

Affiliation Period

A period of time that must expire before health insurance coverage provided by an HMO becomes effective, and during which the HMO is not required to provide coverage.

Affordable Care Act

The Patient Protection and Affordable Care Act of 2010, as amended by the Health Care and Education Reconciliation Act of 2010, and subsequent guidance issued thereunder.

Alternate Procedure

The most cost-effective treatment of a dental condition which will provide a professionally acceptable result as determined by national standards of dental practice. Consideration is given to the current clinical oral condition based upon the diagnostic material submitted by the dentist.

Ambulatory Surgical Center

An institution or facility, either free standing or as a part of a hospital with permanent facilities, equipped and operated for the primary purpose of performing surgical procedures and to which a patient is admitted to and discharged from within a twenty-four (24) hour period. An office maintained by a physician for the practice of medicine or dentistry, or for the primary purpose of performing terminations of pregnancy, shall not be considered to be an ambulatory surgical center.

Birthing Center

A special room in a hospital that exists to provide delivery, prenatal, and postnatal care with a minimum of medical intervention, or a free-standing out-patient facility that:

- is in compliance with licensing and other legal requirements in the jurisdiction where it is located;
- is engaged mainly in providing a comprehensive birth service program to persons who are considered normal low-risk patients;
- has organized facilities for birth services on its premises; and
- provides birth services by physicians, registered nurses, or midwife nurse practitioners when a patient is in the center.

Body Mass Index (BMI)

A measurement that takes into account height and weight in calculating overall body fat. This normalized measure is used to determine levels of obesity for an average adult.

BMI Categorization

0 < 25 Normal

25 < 27 Overweight

27 < 30 Mild Obesity

30<35 Moderate Obesity
35>40 Severe Obesity
40<50 Morbid Obesity
50<60 Super Obesity

Business Associate

Shall generally have the same meaning as the term “business associate” at 45 CFR 160.103, and in reference to the party to this plan, shall mean Texas Annual Conference of the United Methodist Church.

Calendar Year

The period of time commencing at 12:01 a. m. on January 1 of each year and ending at 12:01 a.m. on the next January 1. Each succeeding like period will be considered a new calendar year.

Calendar Year Maximum Benefit

The most benefits the Plan will pay for covered expenses of a covered person incurred during a calendar year.

Certificate of Coverage

A written certification provided by any source that offers medical care coverage, including this plan, for the purpose of confirming the duration and type of an individual’s previous coverage.

Claimant

Any covered person on whose behalf a claim is submitted for benefits under the Plan.

Class of Coverage

The benefits for which a group of employees is eligible, according to criteria specified by the employer in the participation agreement or subsequent amendments thereto.

Close Relative

The spouse, parent, brother, sister, child or spouse's parent of a Covered Person.

COBRA

The Consolidated Omnibus Budget Reconciliation Act of 1985, as amended. COBRA does not apply to the TAC group because it is a church plan.

Co-Insurance

The part of covered expenses that the Plan or covered person pays, excluding amounts that are payable by a covered person as a deductible or co-payment or because of a benefit maximum.

Contract Administrator

The company that provides claims adjudication and other services to the Plan in accordance with an administrative services agreement between the Contract Administrator and the Plan.

Covered Entity

Shall generally have the same meaning as the term “covered entity” at 45 CFR 160.103, and in reference to the party to this plan, shall mean Texas Annual Conference of the United Methodist Church.

Covered Expense

An expense incurred by a covered person that is payable by the Plan as co-insurance or is payable by the covered person as a deductible, as co-insurance, as a co-payment, or because of a benefit.

Covered Person

A covered employee, a covered dependent, or a qualified COBRA beneficiary.

Creditable Coverage

Prior medical coverage that an individual had from any of the following sources: a group health plan, health insurance coverage, Medicare, Medicaid, medical and dental care for members and former members of the uniformed services and their dependents, a medical care program of the Indian Health Service or tribal organization, a state health benefits risk pool, certain other state-sponsored arrangements established primarily to provide medical benefits to persons who have difficulty in obtaining affordable coverage because of a medical condition, a health plan offered under the Federal Employees Health Benefits Program, a public health plan, or a health benefit plan under the Peace Corps Act, provided the coverage did not consist solely of excepted benefits under federal law.

Custodial Care

The term "Custodial Care" means that type of care or service, wherever furnished and by whatever name called, which is designed primarily to assist a Covered Person, whether or not totally disabled, in the activities of daily living. Such activities include, but are not limited to: bathing, dressing, feeding, preparation of special diets, assistance in walking or in getting in and out of bed, and supervision over medication which can normally be self-administered.

Deductible

See schedule of benefits for information.

Dependent

See "Eligibility and Effective Dates."

Durable Medical Equipment

Durable medical equipment includes such items as orthotics, braces, crutches, wheelchairs, hospital beds, iron lungs, dialysis equipment, Glucometers, Dextrometers, etc., that:

- can withstand repeated use;
- are primarily and customarily used to serve a medical purpose;
- generally are not useful to a person in the absence of sickness or accidental injury; and
- are appropriate for use in the home.

Eligible Expense

An expense that is covered by a specific benefit provision of the plan document and incurred while the person is covered by the plan document.

Employee

See "Eligibility and Effective Dates."

Employer

The employer or employers participating in the plan as stated in "General Plan Information."

Essential Health Benefits

Includes (1) ambulatory services; (2) emergency services; (3) hospitalization; (4) maternity and newborn care; (5) mental health and substance use disorder services, including behavioral treatment; (6) prescription drugs; (7) rehabilitative and habilitative services and devices; (8) laboratory services; (9) preventive and wellness services and chronic disease management; and (10) pediatric services, including oral and vision care, as determined by the Plan Administrator in accordance with the Affordable Care Act.

Exclusive Provider Organization (EPO)

A group of providers such as physicians, hospital facilities, outpatient facilities and or other providers who have contracted with the health plan to supply services to covered individuals under special fee arrangements.

Health Breach Notification Rule

Shall mean 16 CFR Part 318

HIPAA Rules

The Privacy, Security, Breach Notification, and Enforcement Rules at 45 CFR Part 160 and Part 164.

Home Health Care Agency

An agency or organization that:

- is certified under Title 18 of the United States Social Security Act of 1965, as amended from time to time; or
- is certified to participate as a home health care agency in the area in which the services are rendered.

Hospice Care Program

An entity:

- providing a coordinated set of services rendered at home, in an out-patient setting, or in an institutional setting for covered persons suffering from a condition that has a terminal prognosis;
- that has an interdisciplinary group of personnel including at least one physician and one registered graduate nurse;
- that maintains central clinical records on all patients; and
- meets the standards of the National Hospice Organization and applicable state licensing requirements.

Hospital

An institution that:

- complies with all licensing and other legal requirements and is operating lawfully in the jurisdiction where it is located;
- is primarily engaged in providing medical treatment to sick and injured persons as registered bed-patients;
- has a staff of one or more licensed doctors of medicine or doctors of osteopathy available at all times;
- continuously provides a 24-hour-a-day nursing service by registered graduate nurses;
- maintains facilities for diagnosis of injury and disease;
- maintains permanent facilities for major surgical operations on its premises; and
- is not, other than incidentally, a place of rest, for custodial care, for the aged, for drug addicts or alcoholics, for the care of senile persons, a nursing home, a hotel, a school, or a similar institution.

A hospital will also include:

- an institution that is legally constituted as a hospital and for which the laws of the state specify requirements other than those listed above and that is operated primarily for the care and treatment of sick and injured person as in-patients;
- an institution or facility that provides treatment for mental illness, provided that such institution or facility:
 - is licensed by the state licensing body or is approved by the state department responsible for such institutions or facilities; and
 - renders recognized treatment for the condition for which it is licensed or approved to operate; or
- an alcohol dependency treatment center that provides a program for the treatment of alcohol dependency pursuant to a written treatment plan approved and monitored by a physician and which facility is also:
 - affiliated with a hospital under a contractual agreement with an established system for patient referral;
 - accredited as such a facility by the Joint Commission on Accreditation of Hospitals; or

- licensed, certified, or approved as an alcohol dependency treatment program or center by any other state agency having legal authority to so license, certify, or approve.

Illness

A bodily disorder, disease, physical sickness, mental infirmity, Functional Nervous disorder or Pregnancy of a Covered Person. A recurrent illness will be considered one illness. Concurrent illnesses will be considered one illness unless the concurrent illnesses are totally unrelated. All such disorders existing simultaneously which are due to the same or related causes shall be considered one illness.

Immediate Family

You, your spouse, and the children, brothers, sisters, and parents of you and your spouse.

Incurred

Expenses shall be deemed to be incurred on the latest of the following dates:

- the date a purchase is contracted;
- the date delivery is made; or
- the actual date a service is rendered.

Injury

A condition caused by accidental means which results in damage to the Covered Person's body from an external force.

In-Patient

A person physically occupying a room and being charged for room and board in a facility (hospital, skilled nursing facility, etc.) that is covered by the Plan and to which the person has been assigned on a 24-hour-a-day basis without being issued passes to leave the premises.

Late Enrollee

An individual who is allowed to enroll in the plan, other than during the period of initial eligibility.

Local Community Network (LCN)

See Exclusive Provider Organization and other local community provider arrangements.

Maximum Eligible Charge

An amount determined at the discretion of Plan Administrator or its delegate considering:

- For in-network claims the negotiated preferred provider allowable.
- For out-of-network claims the amount agreed to by the non-network provider and Plan Administrator or its delegate. If the amount has not been negotiated, then one of the following amounts will apply:
 - For out-of-network hospital claims the lesser of billed charges or 150% of the published rates allowed by Medicare for the same or similar service or supply.
 - For out-of-network professional claims and other providers the lesser of billed charges or 150% of the published rates allowed by Medicare for the same or similar service or supply.
 - For out-of-network claims submitted by providers that don't participate in Medicare, for care provided in non-standard settings and for services and supplies not covered by Medicare the Payer Compass equivalency tables, Payer Compass approximation tool, Payer Compass cross walks or the Optum360 Essential RBRVS Schedule will be considered at corresponding percentile listed above.
 - In determining the Maximum Eligible Charge for any out-of-network claim, the Plan Administrator or its delegate may consider any other relevant factor, including but not limited to the Average Wholesale Price, the invoice price, Medicare cost data, Medicare cost-to-charge ratios, the amount Medicaid would allow for the same or similar service and the Fair Health Data Base.

- The Maximum Eligible Charge for Outpatient Dialysis Services for non-PPO (out-of-network) providers is the *lesser* of:
 - The provider's normal charge for the same or similar service or supply; or
 - 800% of what Medicare would allow.

Maximum Plan Benefit

The total of all benefits the Plan will pay for covered expenses of a covered person incurred during all periods a person is covered under the Plan.

Medically Necessary or Medical Necessity

When a service, treatment, device, drug, or supply is necessary and appropriate for the diagnosis or active treatment of an Illness or Injury based on generally accepted medical practice.

To be Medically Necessary, Covered Expenses must:

- *be rendered in connection with an Injury or Illness;*
- *be consistent with the diagnosis and treatment of your condition;*
- *be in accordance with the standards of good medical practice; and*
- *be provided at the most appropriate level of care or in the most appropriate type of health care facility.*

Only your medical condition (not the financial status or family situation, the distance from a facility or any other non-medical factor) is considered in determining which level of care or type of health care is appropriate.

Medically Necessary is the criteria by which the Plan Administrator determines the necessity of medical service and treatment under this Plan.

The fact that any particular Physician may prescribe, order, recommend or approve a service, treatment, device, drug or supply does not, of itself, make it Medically Necessary.

A service, treatment, device, drug, or supply will not be considered Medically Necessary if:

- it is provided only as a convenience to the Covered Person or provider;
- it is not appropriate treatment for the Covered Person's diagnosis or symptoms;
- it exceeds (in scope, duration or intensity) that level of care that is needed to provide safe, adequate and appropriate diagnosis or treatment;
- it is part of a plan of treatment that is considered to be Investigative, Experimental or for Research Purposes in the diagnosis or treatment of an Illness or Injury. "Investigative, Experimental or for Research Purposes" means services or supplies not recognized or proven to be effective treatment of an Illness or Injury in accordance with generally accepted medical practice, based on consultation with an appropriate source; or
- it involves the use of a drug or substance not formally approved by the United States Food & Drug Administration, even if approval is not required, or if it involves the use of a drug or substance that cannot be lawfully marketed without the approval of the Food and Drug Administration or other appropriate governmental agency, such approval not having been granted at the time of use or proposed use;
- is generally, commonly, and customarily regarded by experts who regularly practice in the area of treatment of the particular disease or condition in question as a drug, treatment, device, procedure, or other service whose usage should be substantially confined to research settings, as set forth in the published authoritative literature; or
- is being provided pursuant to a Food and Drug Administration Phase I or Phase II clinical trial or as the experimental or research arm of a Phase III clinical trial.

The sources of information to be relied upon are:

- the published authoritative medical or scientific literature regarding the drug, treatment, device, procedure, or other service at issue as it is applied to the particular Injury or Sickness at issue;
- a Covered Person's medical records;
- protocol pursuant to which the treatments is to be delivered; or
- any regulations and publications set forth by any governmental agency.

In the event the *Plan Administrator* determines that a service is not *medically necessary*, but the applicable *network* or *network provider* determines that a service is *medically necessary*, the *Plan* will consider the claim to be *medically necessary* if required by the applicable *network* agreement.

Medicare

Health insurance for the aged as established by Title I of Public Law 89-98 including parts A & B and Title XVIII of the Social Security Act, as amended from time to time.

Mental and Nervous Care/Substance Abuse

Such terms include treatment for mental and nervous care, disorders, or conditions, as accepted by the general psychiatric community, including treatment for substance abuse.

Nurse

A person who is a licensed registered graduate nurse (R.N.), licensed practical nurse (L.P.N.), or a licensed vocational nurse (L.V.N.).

Nurse Anesthetist

A Certified Registered Nurse Anesthetist (CRNA) is a trained nurse who has specialized in anesthesia and possesses documented capability for giving anesthetics.

Occupational Injury or Sickness

Any injury or sickness that the covered person has or had a right to compensation under any workers' compensation law, occupational disease law, or other law of similar purpose; or, resulted from employment or occupation for compensation.

Oral Surgery

Necessary procedures for surgery in the oral cavity, including pre- and post-operative care.

Orthodontic Treatment

The movement of teeth through bone, by means of active appliances, to correct the position of maloccluded or malpositioned teeth.

Out-Patient

Services rendered on other than an in-patient basis.

PHI

Protected Health Information, as enacted pursuant to HIPAA.

Physician

A doctor of medicine, (M.D.), or doctor of osteopathy (D.O.), who is licensed to practice medicine or osteopathy where the care is provided.

"Physician" also includes the following providers, but only when the provider is licensed to practice where the care is rendered and is rendering a service within the scope of that license:

- Dentist (D.D.S. or D.M.D.);
- Optometrist (O.D.);
- Podiatrist or Chiropodist (D.P.M., D.S.P., or D.S.C.);

- Psychologist (Ph.D.); and
- Chiropractor (D.C.).

"Physician" will also include the following providers, but only when the provider is licensed to practice where the care is rendered, is rendering a service within the scope of that license, and is rendering a service to an individual who was referred to him by an M.D. or D.O.:

- Physical therapist (P.T. or R.P.T.);
- Speech pathologist;
- Audiologist;
- Certified Registered Nurse Anesthetist (C.R.N.A.);
- Medical Social Worker (M.S.W.);
- Licensed Professional Counselor (L.P.C.);
- Physician's Assistant (P.A.);
- Certified Nurse Practitioner;
- Certified Midwife; and
- Occupational therapist (O.T.R.).

For purposes of certifying total disability, "physician" will include only doctors of medicine (M.D.) and doctors of osteopathy (D.O.).

Plan Administrator

See "Plan Sponsor."

Plan Sponsor

The entity sponsoring this Plan.

Plan Year

The period of time commencing at 12:01 a.m. on the effective date of each employer's plan and ending at 12:01 a.m. on the same day twelve consecutive months later.

PPO

Preferred provider organization.

Preferred Provider Organization (PPO)

An organization that has contracted with the plan sponsor or the contract administrator to provide certain dental care services to covered persons at specific rates. See the schedule of medical benefits for the special benefit level that applies to services obtained from contracted providers.

Pregnancy

Childbirth or miscarriage or complications arising therefrom.

Primary Care Network (PCN)

A group of primary care physicians who have joined together to provide health care services to covered individuals under special fee arrangements and contracted with the health plan.

Primary Care Physician

A physician in family practice, general practice, internal medicine, pediatrician or OB/GYN.

Prosthesis

An artificial device to replace a missing part of the body or to aid the function of a bodily organ.

Relative

A spouse or a parent, brother, sister, or child of the employee or the employee's spouse.

Semi-Private Room Charge

The standard charge by a facility for semi-private room and board accommodations, or the average of such charges where the facility has more than one established level of such charges, or the lowest charge by the facility for single bed room and board accommodations if the facility does not provide any semi-private accommodations.

Sickness

Physician-diagnosed bodily illness or disease, or congenital abnormalities of a covered newborn child. Mental health conditions are not included.

Significant Break in Coverage

A period of 63 consecutive days during all of which an individual did not have any creditable coverage, but does not include a waiting period or an affiliation period.

Skilled Nursing Facility

An institution that:

- is duly licensed as a convalescent hospital, extended care facility, skilled nursing facility, or intermediate care facility and is operated in accordance with the governing laws and regulations;
- is primarily engaged in providing accommodations and skilled nursing care 24 hours a day for convalescing persons and has facilities for the full-time care of at least five (5) patients;
- is under the full-time supervision of a physician or a registered graduate nurse;
- admits patients only upon the recommendation of a physician;
- maintains complete medical records;
- has the services of a physician available at all times; and
- is not, other than incidentally, a nursing home, a hotel, a school, or a similar institution, a place of rest, for custodial care, for the aged, for drug addicts, for alcoholics, for the care of mentally ill or persons with nervous disorders, or for the care of senile persons.

Specialists

Specialists are other covered physicians who are not listed under Primary Care Physician.

Surgery

Any operative or diagnostic procedure performed in the treatment of an injury or illness by instrument or cutting procedure through any natural body opening or incision.

Temporomandibular Joint Dysfunction

Any services or supplies for the treatment of the temporomandibular joint or jaw-related neuromuscular conditions with oral appliances, oral splints, oral orthotics, devices, prosthetics, dental restorations, orthodontics, physical therapy, or alteration of the occlusal relationships of the teeth or jaws to eliminate pain or dysfunction of the temporomandibular joint and all adjacent or related muscles and nerves.

Total Disability or Totally Disabled

Regarding an employee, disability resulting solely from a sickness or accidental injury that prevents the employee from engaging in any employment or occupation for which he/she is or becomes qualified because of education, training, or experience.

For a dependent, disability that prevents the dependent from engaging in substantially all the normal activities of a person in good health of like age and gender.

A covered person must also be under the care of a physician (M.D. or D.O.) to be considered totally disabled for benefit purposes.

Waiting Period

The period that must pass before an employee or dependent is eligible to enroll under the terms of a group health plan. If an employee or dependent enrolls as a late enrollee, any period before such late enrollment is not a waiting period. If an individual seeks and obtains coverage in the individual market, any period after the date the individual files a substantially complete application for coverage and before the first day of coverage is a waiting period.

NOTICE OF PRIVACY PRACTICES

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

This notice is required to be included prior to September 23, 2013.

This Plan complies with the requirements of § 164.504(f) of the Health Insurance Portability and Accountability Act of 1996 and its implementing regulations, 45 C.F.R. parts 160 through 164 (the regulations are referred to herein as the “HIPAA Privacy Rule” and § 164.504(f) is referred to as “the “504” provisions”) which establish the extent to which the Plan sponsor will receive, use and/or disclose Protected Health Information.

The Plan’s Designation of Person/Entity to Act on its Behalf

The Plan has determined that it is a group health plan within the meaning of the HIPAA Privacy Rule, and the Plan designates Barbara Kilby, Privacy Officer, to take all actions required to be taken by the Plan in connection with the HIPAA Privacy Rule (*e.g.*, entering into business associate contracts; accepting certification from the Plan sponsor).

The Plan’s disclosure of Protected Health Information to the Plan sponsor – Required Certification of Compliance by Plan sponsor

Except as provided below with respect to the Plan’s disclosure of summary health information, the Plan will (a) disclose Protected Health Information to the Plan sponsor or (b) provide for or permit the disclosure of Protected Health Information to the Plan sponsor by a health insurance issuer or HMO with respect to the Plan, only if the Plan has received a certification (signed on behalf of the Plan sponsor) that:

1. the Plan Documents have been amended to establish the permitted and required uses and disclosures of such information by the Plan sponsor, consistent with the “504” provisions;
2. the Plan Documents have been amended to incorporate the Plan provisions set forth in this section; and
3. the Plan sponsor agrees to comply with the Plan provisions as described by this section

Permitted disclosure of members’ Protected Health Information to the Plan sponsor

The Plan (and any health insurance issuer or HMO servicing the Plan) will disclose members’ Protected Health Information to the Plan sponsor only to permit the Plan sponsor to carry out plan administration functions. Such disclosure will be consistent with the provisions of this section.

All disclosures of the Protected Health Information of the Plan’s members by a health insurance issuer or HMO to the Plan sponsor will comply with the restrictions and requirements set forth in this section and in the “504” provisions.

The Plan may not, and may not permit a health insurance issuer or HMO, to disclose members’ Protected Health Information to the Plan sponsor for employment-related actions and decisions or in connection with any other benefit or employee benefit plan of the Plan sponsor.

The Plan sponsor will not use or further disclose members’ Protected Health Information other than as described in the Plan Documents and permitted by the “504” provisions.

The Plan sponsor will ensure that any agent(s), including a subcontractor, to whom it provides members’ Protected Health Information received from the Plan (or from the Plan’s health insurance issuer or HMO), agrees

to the same restrictions and conditions that apply to the Plan sponsor with respect to such Protected Health Information.

The Plan sponsor will not use or disclose members' Protected Health Information for employment-related actions and decisions or in connection with any other benefit or employee benefit plan of the Plan sponsor. The Plan sponsor will report to the Plan any use or disclosure of Protected Health Information that is inconsistent with the uses or disclosures provided for in the Plan Documents (as amended) and in the "504" provisions, of which the Plan sponsor becomes aware.

Disclosure of members' Protected Health Information – Disclosure by the Plan sponsor

The following types of uses and disclosures of a member's Protected Health Information may not be disclosed by the Plan sponsor without the member's written authorization:

1. Uses and disclosures for marketing purposes.
2. Uses and disclosures that constitute the sale of Protected Health Information.
3. Other uses and disclosures not described in this notice.

If a member authorizes any of the above uses or disclosures, the member may revoke such authorization in accordance with 45 C.F.R. § 164.508(b)(5).

Individual Rights

Under the HIPAA Privacy Rule, individuals have the following rights with respect to Protected Health Information:

A member may request restrictions on certain uses and disclosures of Protected Health Information as provided by 45 C.F.R. § 164.522(a). The Plan sponsor is not required to agree to a requested restriction, except in the case of a disclosure restricted under C.F.R. § 164.522(a)(1)(vi).

A member has the right to receive confidential communications of Protected Health Information as provided by 45 C.F.R. § 164.522(b), as applicable.

The Plan sponsor will make the Protected Health Information of the member who is the subject of the Protected Health Information available to such member in accordance with 45 C.F.R. § 164.524.

The Plan sponsor will make members' Protected Health Information available for amendment and incorporate any amendments to members' Protected Health Information in accordance with 45 C.F.R. § 164.526.

The Plan sponsor will make and maintain an accounting so that it can make available those disclosures of members' Protected Health Information that it must account for in accordance with 45 C.F.R. § 164.528.

The Plan sponsor will provide a paper copy of this notice to any member upon request, including any member who has agreed to receive the notice electronically.

The Plan sponsor will make its internal practices, books and records relating to the use and disclosure of members' Protected Health Information received from the Plan available to the U.S. Department of Health and Human Services for purposes of determining compliance by the Plan with the HIPAA Privacy Rule.

The Plan sponsor will, if feasible, return or destroy all members' Protected Health Information received from the Plan (or a health insurance issuer or HMO with respect to the Plan) that the Plan sponsor still maintains in any form after such information is no longer needed for the purpose for which the use or disclosure was made. Additionally, the Plan sponsor will not retain copies of such Protected Health Information after such information is no longer needed for the purpose for which the use or disclosure was made. If, however, such return or

destruction is not feasible, the Plan sponsor will limit further uses and disclosures to those purposes that make the return or destruction of the information infeasible.

The Plan sponsor will ensure that the required adequate separation, described below, is established and maintained.

Disclosures of Summary Health Information and Enrollment and Disenrollment Information to the Plan sponsor

The Plan, or a health insurance issuer or HMO with respect to the Plan, may disclose summary health information to the Plan sponsor, if the Plan sponsor requests the summary health information for the purpose of:

1. Obtaining premium bids from health plans for providing health insurance coverage under the Plan; or
2. Modifying, amending, or terminating the Plan.

The Plan sponsor is prohibited from using or disclosing Protected Health Information that is genetic information of an individual for underwriting purposes.

The Plan, or a health insurance issuer or HMO with respect to the Plan, may disclose enrollment and disenrollment information to the Plan sponsor without the need to amend the Plan Documents as provided for in the “504” provisions.

Required separation between the Plan and the Plan sponsor

In accordance with the “504” provisions, this section describes the employees or classes of employees or workforce members under the control of the Plan sponsor who may be given access to members’ Protected Health Information received from the Plan or from a health insurance issuer or HMO servicing the Plan. (Classes may include, for example: Analyst/Administrators; Service Personnel; Information Technology Personnel; Clerical Personnel; Supervisors/Managers; Quality Assurance Unit)

1. Service Personnel
2. Clerical Personnel
3. Broker / Consultant
4. Group Health Benefits Committee

This list reflects the employees, classes of employees, or other workforce members of the Plan sponsor who receive members’ Protected Health Information relating to payment under, health care operations of, or other matters pertaining to plan administration functions that the Plan sponsor provides for the Plan. These individuals will have access to members’ Protected Health Information solely to perform these identified functions, and they will be subject to disciplinary action and/or sanctions (including termination of employment or affiliation with the Plan sponsor) for any use or disclosure of members’ Protected Health Information in violation of, or noncompliance with, the provisions of this section.

The Plan sponsor will promptly report any such breach, violation, or noncompliance to the Plan and will cooperate with the Plan to correct the violation or noncompliance; to impose appropriate disciplinary action and/or sanctions, and to mitigate any deleterious effect of the violation or noncompliance.

The Plan sponsor is required to abide by the terms of this notice as long as this notice remains in effect.

The Plan sponsor reserves the right to change the terms of this notice and to make the new notice provisions effective for all Protected Health Information that the Plan sponsor maintains. Any changes to the terms of this

notice will be published on the Plan Sponsor's website [and a notice of such changes will be mailed to each member].

If a member believes their privacy rights have been violated, the member may complain to the Plan sponsor and to the Secretary of the Department of Health and Human Services. Any complaint filed with the Plan sponsor must be in writing and directed to Privacy Officer Barbara Kilby using the contact information listed below. The member will not be retaliated against in any way for filing a complaint.

**ADOPTION OF THE PLAN DOCUMENT
STANDARD PPO PLAN**

Adoption

Plan sponsor hereby adopts this plan document as the written description of its employee welfare benefit plan (the "plan"). This plan document is a restatement of the plan, with benefit changes, and is effective on January 1, 2019.

Purpose of the Plan

The purpose of the plan is to provide certain benefits for eligible employees of the employer and their eligible dependents. The benefits provided by the plan include:

HEALTH CARE COVERAGES

Medical Coverage (Hospital, Physician Services, etc.)
Prescription Drug Card

About the Plan

While the Texas Annual Conference intends to continue this plan indefinitely, it reserves the right to change or end the plan in its entirety or with respect to any covered class or classes. In addition, the Group Health Benefits Committee reserves the right to determine who is eligible for benefits, the amount of benefits to be paid, and to determine all plan provisions.

The Plan is sponsored by the Texas Annual Conference of The United Methodist Church. Administration of the plan is the responsibility of the Group Health Benefits Office under the direction of Conference Group Health Benefits Committee. The plan is a self-funded plan and payments are derived from apportionments, church contributions, personal contributions, and interest. It is intended that the plan will serve to describe the nature, funding, and benefits of the plan.

Acceptance of the Plan Document

IN WITNESS WHEREOF, the plan sponsor has caused this instrument to be executed, effective as of January 1, 2019.
