

**The SCL Specialty Pharmacy Program MUST be used to obtain specialty drugs available through the Program as listed on the Specialty Drug List (on reverse side).**

To help you manage your pharmaceutical expenses, Script Care, Ltd. includes the SCL Specialty Pharmacy Program with your prescription drug plan. The Program will handle a wide range of specialty drug items relating to the treatment of various chronic conditions.

The program covers Specialty Drugs that you may obtain on an outpatient basis or administered in the doctor's office or home health care agency as covered through prescription drug benefits. The SCL Specialty Pharmacy will provide you lower out of pocket expense, at the same time offering a lower cost for your group's plan as well.

Medications available through the Program will be dispensed through a full-service pharmacy. The Program will provide a convenient way to receive injectables and hard to find drugs while offering expert care services to help you stay healthy. These services include informative disease-related materials, pharmacist and nurse access. Delivery of your medication will be mailed to your home or location of choice within 24-72 hours, and you will receive advance delivery notification calls to make you aware of when you can expect your order. The program also offers easy refill ordering options as well.

**INITIAL ORDER:**

- For new Specialty Prescriptions, please call the SCL Specialty Pharmacy help desk toll free at 1-866-443-1991, and a customer service representative will assist you in the ordering process.
- If you already have a Specialty Prescription that was filled through a retail pharmacy or mail order facility, contact the SCL Specialty Pharmacy Program help desk toll free at 1-866-443-1991 and customer service representative will assist you in transferring the prescription to the SCL Specialty Pharmacy.

**REFILLS:**

- At the time of your order, you may setup a refill reminder. A customer service representative will contact you when you are eligible to refill.

**DELIVERY:**

- A customer service representative will contact you to verify your order and your shipping address before your prescription is shipped.

**Your medications will be delivered to your home, office, physician's office or home health care agency of your choice via FedEx or UPS.**
