

# Your Rights and Protections Against Surprise Medical Bills

**When you get emergency care or get treated by an out-of-network provider at an in-network hospital or ambulatory surgical center, you are protected from surprise billing or balance billing. In these cases, you shouldn't be charged more than your plan's copayments, coinsurance and/or deductible.**

## **What is "balance billing" (sometimes called "surprise billing")?**

When you see a doctor or other health care provider, you may owe certain out-of-pocket costs, such as a copayment, coinsurance, or deductible. You may have other costs or have to pay the entire bill if you see a provider or visit a health care facility that isn't in your health plan's network.

"Out-of-network" means providers and facilities that haven't signed a contract with your health plan to provide services. Out-of-network providers may be permitted to bill you for the difference between what your plan agreed to pay and the full amount charged for a service. This is called "**balance billing**." This amount is likely more than in-network costs for the same service and might not count toward your plan's deductible annual out-of-pocket limit.

"Surprise billing" is an unexpected balance bill. This can happen when you can't control who is involved in your care—like when you have an emergency or when you schedule a visit at an in-network facility but are unexpectedly treated by an out-of-network provider. Surprise medical bills could cost thousands of dollars depending on the procedure or service.

## **You're protected from balance billing for:**

### **Emergency Services**

If you have an emergency medical condition and get emergency services from an out-of-network provider or facility, the most they can bill you is your plan's in-network cost-sharing amount (such as copayments, coinsurance, and deductibles). You **can't** be balance billed for these emergency services. This includes services you may get after you're in stable condition, unless you give written consent and give up your protections not to be balanced billed for these post-stabilization services.

As of August 2022, the following 18 states had enacted comprehensive Balance Billing Protections: California, Colorado, Connecticut, Florida, Georgia, Illinois, Maine, Maryland, Michigan, New Hampshire, New Jersey, New Mexico, New York, Ohio, Oregon Texas, Virginia, Washington.

As of August 2022, the following 15 states had enacted limited Balance-Billing Protections: Arizona, Delaware, Indiana, Iowa, Massachusetts, Minnesota, Mississippi, Missouri, Nebraska, Nevada, North Carolina, Pennsylvania, Rhode Island, Vermont, West Virginia.

Generally, those state passed protections apply to fully insured medical plans governed by the specific state and not self-funded medical plans. Check the state insurance commissioner website for details on specific state laws.

If your state is not listed, check your state commissioner's website as states may adopt a surprising billing mandate at any time.

### **Certain Services at an In-Network Hospital or Ambulatory Surgical Center**

When you get services from an in-network hospital or ambulatory surgical center, certain providers there

may be out-of-network. In these cases, the most those providers may bill you is your plan's in-network cost-sharing amount. This applies to emergency medicine, anesthesia, pathology, radiology, laboratory, neonatology, assistant surgeon, hospitalist, or intensivist services. These providers **can't** balance bill you and may **not** ask you to give up your protections not to be balance billed.

If you get other types of services at these in-network facilities, out-of-network providers **can't** balance bill you, unless you give written consent and give up your protections.

**You're never required to give up your protections from balance billing. You also aren't required to get care out-of-network. You can choose a provider or facility in your plan's network.**

**When balance billing isn't allowed, you also have the following protections:**

- You're only responsible for paying your share of the cost (like the copayments, coinsurance, and deductible that you would pay if the provider or facility was in-network). Your health plan will pay any additional costs to out-of-network providers and facilities directly.
- Generally, your health plan must:
  - Cover emergency services without requiring you to get approval for services in advance (also known as "prior authorization").
  - Cover emergency services by out-of-network providers.
  - Base what you owe the provider or facility (cost-sharing) on what it would pay an in network provider or facility and show that amount in your explanation of benefits.
  - Count any amount you pay for emergency services or out-of-network services toward your in-network deductible and out-of-pocket limit.

**If you think you've been wrongly billed**, you may contact the US Dept. of Health & Human Services at 1-877-696-6775 or your State Insurance Commissioner.
